November 24, 2004

The Honorable Judy Martz
Governor of Montana
Room 204, State Capitol
PO Box 200801
Helena, MT 59620

Dear Governor Martz:

The Public Employees' Retirement Board (PERB) and its staff, the Montana Public Employee Retirement Administration (MPERA), are pleased to submit this *Comprehensive Annual Financial Report* (CAFR) for the fiscal year ended June 30, 2004, in accordance with 19-2-407, Montana Code Annotated. The PERB is a discretely presented component unit Pension Trust Fund of the State of Montana financial reporting entity. For this reason, the financial statements contained in this report are also included in the State of Montana Comprehensive Annual Financial Report.

The Public Employees' Retirement Board administers ten separate retirement plans, each reported in this CAFR. They include the *Public Employees' Retirement System-Defined Benefit Retirement Plan* (in its 60th year of operation) and *Public Employees' Retirement System-Defined Contribution Retirement Plan, Judges' Retirement System, Highway Patrol Officers' Retirement System, Sheriffs' Retirement System, Game Wardens' and Peace Officers' Retirement System, Municipal Police Officers' Retirement System, Firefighters' Unified Retirement System, Volunteer Firefighters' Compensation Act* and the *Deferred Compensation (457) Plan*.

The CAFR is divided into five sections:

- an *Introductory Section*, which contains the table of contents, letter of transmittal and administrative organization;
- a *Financial Section*, which contains the report of the Independent Auditors, the Management's Discussion and Analysis, the financial statements of the PERB, the notes to the financial statements, certain required supplementary information and supporting schedules of administrative expenses, investment expenses and payments to consultants;
- an *Investment Section*, which contains a report on investment activity, investment policies, investment results and various investment schedules;
- an *Actuarial Section*, which contains the Actuary's Certification Letter and the results of the biennial actuarial valuation; and,
- a *Statistical Section*, which includes significant data pertaining to the plans.

INTRODUCTORY SECTION

Fiduciary responsibility for the systems rests with the PERB, which consists of seven members, appointed by the Governor. The members are assigned five-year, staggered terms. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation rests with the MPERA. This CAFR was prepared in conformance with the principles of governmental accounting and reporting set forth by the Governmental Accounting Standards Board, including the Management's Discussion and Analysis (MD&A). Defined benefit and defined contribution transactions are reported on the accrual basis of accounting. Sufficient internal accounting controls exist to provide reasonable assurance regarding the fair presentation of the financial statements, supporting schedules and the safekeeping of assets.

The pages that follow report the facts and figures that are the result of dedicated work, new initiatives, improved processes and continuing efforts made to meet the needs of our customers. We trust that you and the members of the plans will find this CAFR helpful in understanding the retirement plans.

MANAGEMENT DISCUSSION AND ANALYSIS

The Management Discussion & Analysis (MD&A) beginning on page 18, is a discussion, by management, of the financial position of the retirement plans. It provides an overview and analysis of the Plans' Basic Financial Statements. This letter of transmittal is intended to complement the MD&A and the two should be read in conjunction.

INVESTMENTS

The investments of the pension trust funds are governed, primarily, by an investment standard known as the "prudent expert principle." The prudent expert principle is constitutionally and statutorily mandated and establishes a standard for all fiduciaries, which includes anyone having authority with respect to the pension trust. The prudent expert principle states that fiduciaries will discharge their duties solely in the interest of the trust fund participants and beneficiaries and with the degree of diligence, care and skill which prudent experts would ordinarily exercise under similar circumstances in a like position. By following the prudent expert principle and permitting further diversification of investments within a fund, the fund may be enabled to reduce overall risk and increase returns. A summary of the asset allocation can be found in the *Investment Section* of this annual report.

The prudent expert principle permits the PERB to establish an investment policy based upon certain investment criteria and allows for the delegation of investment authority to the Board of Investments (BOI), Department of Commerce. The statement of investment policy outlines the responsibility for the investment of the funds and the degree of risk that is deemed appropriate for the trust funds. Investment officers are to execute the investment policy in accordance with statutory authority, the PERB's policy and their respective guidelines, but are to use full discretion within the policy and guidelines. For fiscal year 2004, the Public Employees' Retirement System Defined Benefit Retirement Plan's (PERS-DBRP) total rate of return on investments was 13.43 percent. The PERS-DBRP rate of return over the last

three years has averaged a 3.91 percent per year and 2.84 percent over the last five years.

FUNDING

Pension trust funds are well-funded when there is enough money in reserve to meet all expected future obligations to participants. The PERB's funding objective is to meet long-term benefit promises through contributions that remain approximately level as a percent of member payroll. The greater the level of funding, the larger the ratio of assets accumulated to the actuarial accrued liability and the greater the level of investment potential. The advantage of a well-funded plan is that the participants can see assets that are committed to the payment of benefits. A detailed discussion of funding is provided in the *Actuarial Section* of this annual report beginning on page 105.

ECONOMIC CONDITION AND OUTLOOK

The economic outlook of the plans is based primarily upon investment earnings. For 2004, the PERS-DBRP experienced a 13.43 percent fair value rate of return, for the last three years an average annualized rate of return of a 3.91 percent and for the last five years an average annualized rate of return of 2.84 percent. The plans are required by law to be maintained on an actuarially sound basis thus protecting participants' future benefits. The previous bear market has negatively affected earnings, but we anticipate that over the long-term and as the market continues to recover, our earning rates will continue to meet our actuarial assumed earning rates. Current member benefits will not be changed, although the legislature will review the funding and assure the plans are funded on an actuarially sound basis. Based on the report of our actuary for July 1, 2004, one of the eight defined benefit plans had surplus funding and three of the eight defined benefit plans have an actuarial liability that does not amortize over the required 30 years. We will be seeking legislation to increase employer contributions in those three systems.

The PERS-DCRP was implemented July 1, 2002. PERS members had the opportunity to choose participation in either the defined benefit retirement plan (DBRP) or the defined contribution retirement plan (DCRP). University employees also had the option of joining the Optional Retirement Program (ORP) administered by the Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF New York, NY). New hires of the PERS are now exercising their option of choosing the retirement plan in which they wish to belong.

Education is funded by a percentage of employer contributions. The Board is required to educate members and employers of the PERS about the options and benefits of the DCRP and the DBRP. The education campaign is also to prepare new members to make an informed decision about choosing the most appropriate plan for their personal situation.

The web reporting systems take advantage of using advanced technology and result in more accurate reporting and more timely deposits to participants' accounts. As of July 1, 2003, all payrolls had to be reported within five working days of each payday. In fiscal year 2004 the

INTRODUCTORY SECTION

MPERA implemented a 457 web reporting system in conjunction with the web reporting system for the other plans. The MPERA web page was recently redesigned to comply with the state standard for web pages. The new look will make it easier for users to find desired topics and extract necessary information from the web site. Our web site includes descriptions and information on all plans administered by the PERB; the organization of the PERB along with the goals, objectives and how to contact the PERB; meeting dates and times; administrative rules; access to the employer reporting system; frequently asked questions; and publications including newsletters, member and employer handbooks, actuary valuations, and this annual report.

PROFESSIONAL SERVICES

The PERB contracts with consultants for professional services, which are essential to the effective and efficient operation of the plans. Opinions from the independent auditors and the actuary are included in this report. The FY2004 valuation was performed by the PERB's actuary, Milliman U.S.A.

Some outside consultants contracted by the PERB are: Ice Miller; Wisetek; Computer Consulting Corporation; Milliman; Arnerich Massena & Assoc., Inc.; Goetz, Gallik, Baldwin & Dolan; Lawrence R. McEvoy, M.D; and Robert Bateen, Ph.D. Others include the Legislative Audit Division; the Department of Justice Legal Services Division; and the Professional Development Center. A schedule of consultants appears on page 81.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Montana Public Employees' Retirement Board for its comprehensive annual financial report for the fiscal year ended June 30, 2003. This was the sixth consecutive year that the Montana Public Employees' Retirement Board has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government entity must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

PPCC AWARD

The Public Employees' Retirement Board received its second Public Pension Coordinating Council (PPCC) Award in 2004. This award recognizes that the PERB has met the professional standards for plan design and administration as set forth in the Public Pension Standards. The PPCC is a coalition of the National Association of State Retirement Administrators (NASRA),

INTRODUCTORY SECTION

National Conference on Public Employee Retirement Systems (NCPERS), and National Council on Teacher Retirement (NCTR). The major PPCC goal is to promote excellence in plan design and administration among state and local public retirement systems. The Public Pension Standards are intended to serve as a benchmark by which all defined benefit public plans should be measured. Public Pension Standards include: comprehensive benefit programs, funding adequacy, receipt of GFOA award in current year, independent actuarial valuation, independent audit review resulting in an unqualified opinion from the auditor, independent investment performance evaluation, adoption of written fiduciary standards by Board and Investment committee, and communications with membership.

ACKNOWLEDGEMENTS

The compilation of this report reflects the efforts of the staff of the Montana Public Employee Retirement Administration. This report is intended to provide complete and reliable information as a basis for making management decisions, as a means of determining compliance with legal provisions, and as a means of determining responsible stewardship of the funds of the plans.

The reporting employers of each retirement system form the link between the plans and the members. Their cooperation contributes significantly to the success of the plans. We hope the employers and their employees find this report informative.

On behalf of the PERB, we would like to take this opportunity to express our gratitude to the staff, the advisors and the many people who have worked so diligently to assure the successful operation of the plans.

Respectfully submitted,

LEGISLATIVE AUDIT DIVISION

Scott A. Seacat, Legislative Auditor
John W. Northey, Legal Counsel

Deputy Legislative Auditors:
Jim Pellegrini, Performance Audit
Tori Hunthausen, IS Audit & Operations
James Gillett, Financial-Compliance Audit

INDEPENDENT AUDITOR'S REPORT

The Legislative Audit Committee
of the Montana State Legislature:

We have audited the accompanying Statement of Fiduciary Net Assets – Pension Trust Funds of the Public Employees' Retirement Board, a component unit of the state of Montana, as of June 30, 2004 – with comparative totals for June 30, 2003, and the related Statement of Changes in Fiduciary Net Assets – Pension Trust Funds for the year ended June 30, 2004 – with comparative totals for June 30, 2003. These financial statements are the responsibility of the Public Employees' Retirement Board. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Public Employees' Retirement Board's financial statements for the fiscal year ended June 30, 2003, and, in our report dated November 6, 2003, we expressed an unqualified opinion on the respective financial statements of the fiduciary fund activities.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Public Employees' Retirement Board as of June 30, 2004, and the changes in fiduciary net assets for the fiscal year then ended, in conformity with accounting principles generally accepted in the United States of America.

Management's Discussion and Analysis, the Schedule of Funding Progress, and the Schedule of Employer Contributions & Other Contributing Entities are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements of the Public Employees' Retirement Board. The Schedules of Administrative Expenses, Investment Expenses, and Consultants; the Detail of Fiduciary Net Assets (PERS-DBRP and PERS-DBEd) and the Detail of Fiduciary Net Assets (PERS-DCRP, PERS-DCEd and PERS-DC Disability) as of June 30, 2004; and the related Detail of Changes in Fiduciary Net Assets (PERS-DBRP and PERS-DBEd) and the Detail of Changes in Fiduciary Net Assets (PERS-DCRP, PERS-DCEd and PERS-DC Disability) for the fiscal year then ended are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

The financial statements include summarized prior-year comparative information. Such information does not include all of the information required to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Public Employees' Retirement Board's financial statements for the year ended June 30, 2003, from which such summarized information was derived.

The Introductory Section, Investment Section, Actuarial Section, and Statistical Section listed in the foregoing table of contents are presented for the purpose of additional analysis and are not a required part of the financial statements. Such additional information has not been subject to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Respectfully submitted,

(Signature on File)

James Gillett, CPA
Deputy Legislative Auditor

Public Employees' Retirement Board

A Component Unit of the State of Montana

Management's Discussion and Analysis

This section presents management's discussion and analysis of the Montana Public Employees' Retirement Board's financial presentation and performance of the plans administered by the Board for the year ending June 30, 2004. It is presented as a narrative overview and analysis and should be read in conjunction with the Letter of Transmittal included in the Introductory Section, the financial statements and other information which are presented in the Financial Section of this Component Unit Financial Report.

Financial Highlights

- ◆ *The Montana Public Employees' Retirement Board's combined total net assets of the defined benefit plans increased by \$409 million or 12.6 percent in fiscal year 2004. The increase was primarily due to the investment income in each of the retirement plans.*
- ◆ *The Montana Public Employees' Retirement Board's defined contribution plans combined total net assets increased by \$20.8 million or 9.3 percent in fiscal year 2004. The total increase in Net Assets was due to the PERS-Defined Contribution Retirement Plan (DCRP) opening in fiscal year 2003 and an increase in investment income in both the DCRP and the 457 plan.*
- ◆ *Revenues (additions to plan net assets) for the Board's defined benefit plans for fiscal year 2004 was \$595 million, which includes member and employer contributions of \$163 million, net investment income of \$431 million and prior period adjustments of \$1.2 million.*
- ◆ *Revenues (additions to plan net assets) for the Board's defined contribution plans for fiscal year 2004 was \$38.9 million, which includes member and employer contributions of \$19.6 million, net investment income of \$18.5 million and prior period adjustments of \$741 thousand.*
- ◆ *Expenses (deductions to plan net assets) for the Board's defined benefit plans decreased from \$192 million in fiscal year 2003 to \$186 million in fiscal year 2004 or about 3.1% decrease. The decrease in 2004 is primarily due to the one time expense in 2003 of existing members' contributions transferring to the DCRP and the Optional Retirement Plan (ORP).*
- ◆ *Expenses (deductions to plan net assets) for the Board's defined contribution plans increased from \$12.8 million in fiscal year 2003 to \$18 million in fiscal year 2004 or about 40.8%. The increase in expenses is primarily due to the increase in participant refunds/distributions.*
- ◆ *The Montana Public Employees' Retirement Board's defined benefit plans funding objective is to meet long-term benefit obligations. As of July 1, 2004, the date of the latest actuarial valuation, three of the defined benefit plans were not able to pay off the unfunded liabilities over 30 years or less. As a whole the plans were actuarially*

funded at an average of 83.4 percent. It is important to understand this measure reflects the actuarial value of the defined benefit plans' net assets, which exceeds the actual fair value published in the financial statements. Investment earnings are critical to the defined benefit plans and the market decline and associated investment losses in fiscal years 2001 and 2002 have had major impacts on the plans due to the smoothing of market value gains and losses over four years.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Public Employees' Retirement Board's (PERB) financial reporting which is comprised of the following components:

- (1) Financial Statements
- (2) Notes to the Financial Statements
- (3) Required Supplementary Information

Collectively, this information presents the combined net assets held in trust for pension benefits for each of the plans administered by the Public Employees' Retirement Board as of June 30, 2004. This financial information also summarizes the combined changes in net assets held in trust for pension benefits for the year then ended. The information in each of these components is briefly summarized as follows:

- (1) Financial Statements. For the fiscal year ended June 30, 2004, financial statements are presented for the fiduciary funds administered by the PERB. Fiduciary funds are used to account for resources held for the benefit of parties outside of the PERB. The fiduciary funds are held for participants in eight defined

benefit plans and two defined contribution plans.

- The Statement of Fiduciary Net Assets is presented for the pension trust funds at June 30, 2004. These financial statements reflect the resources available to pay benefits to retirees and beneficiaries, at the end of the year reported.
 - The Statement of Changes in Fiduciary Net Assets is presented for the pension trust funds for the year ended June 30, 2004. These financial statements reflect the changes in the resources available to pay benefits to retirees and beneficiaries, at the end of the year reported.
- (2) Notes to the Financial Statements. The Notes to the Financial Statements provide additional information that is essential for a full understanding of the data provided in the financial statements. Information in the Notes to the Financial Statements is described as follows:
 - Note A provides a summary of significant accounting policies, including the basis of accounting, capital assets and equipment used in operations, operating lease, derivatives, methods used to value investments, summaries of investment vendors and other significant accounting policies or explanations.
 - Note B provides information about litigation.
 - Note C describes the debt obligation of the PERS-DCRP. The INTERCAP implementation loan for the PERS-DCRP is to be paid back over fifteen years. The inter-entity loan from the DB Education Fund was used to help pay the DCRP administrative expenses due to

FINANCIAL SECTION

the cash position of the DCRP.

- Note D describes the plans' membership and descriptions of the plans administered by the Public Employees' Retirement Board. Summaries of benefits and contribution information are also provided.
- (3) Required Supplementary Information. The required supplementary information consists of the schedules of funding status and required contributions and related notes concerning actuarial infor-

mation of the defined benefit pension plans administered by the PERB.

Financial Analysis of the Systems – Defined Benefit Plans

Investments

The Montana Board of Investments (BOI), as authorized by state law, invests the defined benefit plans' assets in investment pools. Each plan owns an equity position in the pools and receives proportionate investment

FINANCIAL SECTION

Analysis of Individual Systems

PERS - DBRP and Education

The PERS-DBRP provides retirement, disability, and death benefits for covered employees of the State, local governments and certain employees of the university systems and school districts. Member and employer contributions and earnings on investments fund the benefits of the plan. The PERS-DBRP and the Education Fund have been combined in these comparisons. The PERS-DBRP net assets held in trust for benefits at June 30, 2004 amounted to \$3.0 billion, an increase of \$334 million (12.4 percent) from \$2.7 billion at June 30, 2003.

Additions to the PERS-DBRP net assets held in trust for benefits include employer, member, and state contributions and investment income. For the fiscal year ended June 30, contributions increased from \$120.6 million in fiscal year 2003 to \$121.3 million in fiscal year 2004, for an increase of \$683 thousand (0.57 percent). Contributions increased due to increased salaries being reported to PERS and an increased number of participating employers. The plan recognized net investment income of \$360.2 million for the fiscal year ended June 30, 2004 compared with net investment income of \$167.3 million for the fiscal year ended June 30, 2003. The increases in investment income are mainly due to the turnaround of the equity market.

Deductions from the PERS-DBRP net assets held in trust for benefits primarily include retirement benefits, refunds/distributions, administrative expenses and miscellaneous expenses. For fiscal year 2004, benefits amounted to \$132.7 million, an increase of \$10.5 million (8.5 percent) from fiscal year 2003. The increase in benefit payments was due to the increase in benefit recipients and the average recipient's benefit. For fiscal

year 2004, the costs of administering the plan's benefits amounted to \$2.8 million, an increase of \$571 thousand (25.3 percent) from fiscal year 2003. The increase in administrative expenses for the fiscal year 2004 was mostly due to the WEB System expenditures and the corresponding amortization. The decrease in miscellaneous expenses was due to the conclusion of the initial transfers from the DBRP to the DCRP and the ORP, which occurred in fiscal year 2003.

An actuarial valuation of the PERS-DBRP assets and benefit obligations is performed every two years. At July 1, 2004, the date of the most recent actuarial valuation, the funded status of the plan decreased to 86.72 percent from 99.97 percent at July 1, 2002. The PERS-DBRP actuarial value of assets is less than actuarial liabilities by \$466.8 million at July 1, 2004, compared with \$983 thousand at July 1, 2002. The decrease in funded status as of the last actuarial valuation is a result of the valuation recognizing the previous four-year investment performance.

JRS

The JRS provides retirement, disability and death benefits for all Montana judges of the district courts, justices of the Supreme Court and the Chief Water Judge. Member and employer contributions and earnings on investments fund the benefits of the plan. The JRS net assets held in trust for benefits at June 30, 2004 amounted to \$45.0 million, an increase of \$5.2 million (13.0 percent) from \$39.8 million at June 30, 2003.

Additions to the JRS net assets held in trust for benefits include member and employer contributions and investment income. For the fiscal year ended June 30, 2004, contributions increased from \$1.3 million in fiscal year 2003 to \$1.6 million in fiscal year 2004, for an increase of \$241 thousand (18.0 percent).

Contributions increased because the total compensation reported for active members increased. The plan recognized net investment income of \$5.2 million for the fiscal year ended June 30, 2004 compared with net investment income of \$2.7 million for the fiscal year ended June 30, 2003. The increase in investment income is mainly due to the turnaround of the equity market.

Deductions from the JRS net assets held in trust for benefits mainly include retirement benefits and administrative expenses. For fiscal year 2004, benefits amounted to \$1.7 million, a increase of \$118 thousand (7.6 percent) from fiscal year 2003. The increase in benefit payments was due to the increase in the average recipient's benefit. The increase in administrative expenses for the fiscal year 2004 was mostly due to the WEB System expenditures and the corresponding amortization.

An actuarial valuation of the JRS assets and benefit obligations is performed every two years. At July 1, 2004, the date of the most recent actuarial valuation, the funded status of the plan decreased to 129.98 percent from 145.60 percent at July 1, 2002. The JRS actuarial assets were more than actuarial liabilities by \$10.4 million at July 1, 2004, compared with \$14.1 million actuarial surplus at July 1, 2002. The decrease in funded status as of the last actuarial valuation is a result of the valuation recognizing the previous four-year investment performance.

HPORS

The HPORS provides retirement, disability and death benefits for members of the Montana Highway Patrol. Member and employer contributions, registration fees and earnings on investments fund the benefits of the plan. The HPORS net assets held in trust for benefits at June 30, 2004 amounted to

\$78.6 million, an increase of \$7.5 million (10.5 percent) from \$71.1 million at June 30, 2003.

Additions to the HPORS net assets held in trust for benefits include employer, and member contributions, registration fees and investment income. For the fiscal year ended June 30, contributions decreased from \$4.0 million in fiscal year 2003 to \$3.9 million in fiscal year 2004, a decrease of \$75 thousand (1.9 percent). Contributions decreased because the number of participating members contributing to the plan decreased. The plan recognized net investment income of \$9.3 million for the fiscal year ended June 30, 2004 compared with net investment income of \$4.6 million for the fiscal year ended June 30, 2003. The increase in investment income is mainly due to the turnaround in the equity market.

Deductions from the HPORS net assets held in trust for benefits mainly include retirement benefits, refunds/distributions and administrative expenses. For fiscal year 2004, benefits amounted to \$5.5 million, an increase of \$333 thousand (6.5 percent) from fiscal year 2003. The increase in benefit payments was due to the increase in benefit recipients and the increase in the average recipient's benefit. The increase in administrative expenses for the fiscal year 2004 was mostly due to the WEB System expenditures and the corresponding amortization.

An actuarial valuation of the HPORS assets and benefit obligations is performed every two years. At July 1, 2004, the date of the most recent actuarial valuation, the funded status of the plan decreased to 76.01 percent from 86.17 percent at July 1, 2002. The HPORS actuarial assets were less than actuarial liabilities by \$25.0 million at July 1, 2004, compared with \$13.1 million at July 1,

FINANCIAL SECTION

2002. The decrease in funded status as of the last actuarial valuation is a result of the valuation recognizing the previous four-year investment performance.

SRS

The SRS provides retirement, disability and death benefits for all Department of Justice criminal investigators hired after July 1, 1993 and all Montana sheriffs. Member and employer contributions and earnings on investments fund the benefits of the plan. The SRS net assets held in trust for benefits at June 30, 2004 amounted to \$140.5 million, an increase of \$16.5 million (13.3 percent) from 124.0 million at June 30, 2003.

Additions to the SRS net assets held in trust for benefits include member and employer contributions and investment income. For the fiscal year ended June 30, contributions increased from \$5.2 million in fiscal year 2003 to \$5.4 million in fiscal year 2004, for an increase of \$192 thousand (3.7 percent). Contributions increased because the number of participating members contributing to the plan increased and the total compensation reported for active members increased. The plan recognized net investment income of \$16.4 million for the fiscal year ended June 30, 2004 compared with net investment income of \$8.2 million for the fiscal year ended June 30, 2003. The increase in investment income is mainly due to the turnaround of the equity market.

Deductions from the SRS net assets held in trust for benefits mainly include retirement benefits, refunds/distributions and administrative expenses. For fiscal year 2004, benefits amounted to \$4.9 million, an increase of \$595 thousand (13.8 percent) from fiscal year 2003. The increase in benefit payments was mainly due to an increase in benefit recipients. The increase in administrative expenses

for the fiscal year 2004 was mostly due to the WEB System expenditures and the corresponding amortization.

An actuarial valuation of the SRS assets and benefit obligations is performed every two years. At July 1, 2004, the date of the most recent actuarial valuation, the funded status of the plan decreased to 94.90 percent from 113.95 percent at July 1, 2002. The SRS actuarial assets were more than actuarial liabilities by \$17.0 million at July 1, 2002, compared with \$7.6 million actuarial surplus at July 1, 2004. The decrease in funded status as of the last actuarial valuation is a result of the valuation recognizing the previous four-year investment performance.

GWPORS

The GWPORS provides retirement, disability and death benefits for game wardens, warden supervisory personnel and state peace officers. Member and employer contributions and earnings on investments fund the benefits of the plan. The GWPORS net assets held in trust for benefits at June 30, 2004 amounted to \$45.2 million, an increase of \$7.8 million (20.9 percent) from 37.4 million at June 30, 2003.

Additions to the GWPORS net assets held in trust for benefits include member and employer contributions and investment income. For the fiscal year ended June 30, contributions increased from \$4.1 million in fiscal year 2003 to \$4.7 million in fiscal year 2004, for an increase of \$607 thousand (14.7 percent). Contributions increased because the number of members contributing to the plan increased. The plan recognized net investment income of \$5.1 million for the fiscal year ended June 30, 2004 compared with net investment income of \$2.5 million for the fiscal year ended June 30, 2003. The increase

in investment income is mainly due to the turnaround of the equity market.

Deductions from the GWPORS net assets held in trust for benefits mainly include retirement benefits, refunds/distributions and administrative expenses. For fiscal year 2004, benefits amounted to \$1.4 million, an increase of \$144 thousand (10.9 percent) from fiscal year 2003. The increase in benefit payments was due to the increase in benefit recipients and the increase in the average recipient's benefit. The increase in administrative expenses for the fiscal year 2004 was mostly due to the WEB System expenditures and the corresponding amortization.

An actuarial valuation of the GWPORS assets and benefit obligations is performed every two years. At July 1, 2004, the date of the most recent actuarial valuation, the funded status of the plan decreased to 89.86 percent from 99.03 percent at July 1, 2002. The GWPORS actuarial assets were less than actuarial liabilities by \$5.1 million at July 1, 2004, compared with \$379 thousand at July 1, 2002. The decrease in funded status as of the last actuarial valuation is a result of the valuation recognizing the previous four-year investment performance.

MPORS

The MPORS provides retirement, disability and death benefits for municipal police officers employed by first- and second-class cities and other cities that adopt the plan. Member, employer and state contributions and earnings on investments fund the benefits of the plan. The MPORS net assets held in trust for benefits at June 30, 2004 amounted to \$148.4 million, an increase of \$18.1 million (14.0 percent) from 130.2 million at June 30, 2003.

Additions to the MPORS net assets held in

trust for benefits include employer, member, and state contributions and investment income. For the fiscal year ended June 30, contributions increased from \$12.6 million in fiscal year 2003 to \$13.1 million in fiscal year 2004, for an increase of \$579 thousand (4.6 percent). Contributions increased because the number of members contributing to the plan increased and the total compensation reported for active members increased. The plan recognized net investment income of \$16.4 million for the fiscal year ended June 30, 2004 compared with net investment income of \$8.5 million for fiscal year ended June 30, 2003. The increase in investment income is mainly due to the turnaround of the equity market.

Deductions from the MPORS net assets held in trust for benefits mainly include retirement benefits, refunds/distributions and administrative expenses. For fiscal year 2004, benefits amounted to \$10.9 million, an increase of \$459 thousand (4.4 percent) from fiscal year 2003. The increase in benefit payments was due to the increase in benefit recipients and the increase in the average recipient's benefit. The increase in administrative expenses for the fiscal year 2004 was mostly due to the WEB System expenditures and the corresponding amortization.

An actuarial valuation of the MPORS assets and benefit obligations is performed every two years. At July 1, 2004, the date of the most recent actuarial valuation, the funded status of the plan decreased to 57.48 percent from 63.27 percent at July 1, 2002. The MPORS actuarial assets were less than actuarial liabilities by \$110.6 million at July 1, 2004, compared with \$83.3 million actuarial liabilities at July 1, 2002. The decrease in funded status as of the last actuarial valuation is a result of the valuation recognizing the previous four-year investment performance.

FINANCIAL SECTION

FURS

The FURS provides retirement, disability and death benefits for firefighters employed by first- and second-class cities and other cities that adopt the plan, and firefighters hired by the Montana Air National Guard on or after October 1, 2001. Member, employer, and state contributions and earnings on investments fund the benefits of the plan. The FURS net assets held in trust for benefits at June 30, 2004 amounted to \$141.1 million, an increase of \$17.4 million (14.1 percent) from \$123.7 million at June 30, 2003.

Additions to the FURS net assets held in trust for benefits include employer, member, and state contributions and investment income. For the fiscal year ended June 30, contributions increased from \$10.9 million in fiscal year 2003 to \$11.5 million in fiscal year 2004, an increase of \$593 thousand (5.4 percent). Contributions increased because total compensation reported for active members increased. The plan recognized net investment income of \$15.7 million for the fiscal year ended June 30, 2004 compared with net investment income of \$8.1 million for the fiscal year ended June 30, 2003. The increase in investment income is mainly due to the turnaround in the equity market.

Deductions from the FURS net assets held in trust for benefits mainly include retirement benefits, refunds/distributions and administrative expenses. For fiscal year 2004, benefits amounted to \$9.7 million, an increase of \$593 thousand (6.5 percent) from fiscal year 2003. The increase in benefit payments was due to the increase in benefit recipients and the increase in the average recipient's benefit. The increase in administrative expenses for the fiscal year 2004 was mostly due to the WEB System expenditures and the corre-

sponding amortization.

An actuarial valuation of the FURS assets and benefit obligations is performed every two years. At July 1, 2004, the date of the most recent actuarial valuation, the funded status of the plan decreased to 62.44 percent from 68.9 percent at July 1, 2002. The FURS actuarial assets were less than actuarial liabilities by \$85.5 million at July 1, 2004, compared with \$61.6 million actuarial liability at July 1, 2002. The decrease in funded status as of the last actuarial valuation is a result of the valuation recognizing the previous four-year investment performance.

VFCA

The VFCA provides retirement, disability and death benefits for volunteer firefighters who are members of eligible volunteer fire companies in unincorporated areas. State contributions and earnings on investments fund the benefits of the plan. The VFCA net assets held in trust for benefits at June 30, 2004 amounted to \$20.1 million, an increase of \$2.2 million (12.3 percent) from \$17.9 million at June 30, 2003.

Additions to the VFCA net assets held in trust for benefits include state contributions and investment income. For the fiscal year ended June 30, contributions increased from \$1.3 million in fiscal year 2003 to \$1.4 million in fiscal year 2004, an increase of \$124 thousand (9.5 percent). Contributions increased because there was an increase in the fire insurance premium taxes collected. The plan recognized net investment income of \$2.3 million for the fiscal year ended June 30, 2004 compared with net investment income of \$1.3 million for the fiscal year ended June 30, 2003. The increase in investment income is mainly due to the turnaround in the equity market.

Deductions from the VFCA net assets held in trust for benefits mainly include retirement benefits, supplemental insurance payments and administrative expenses. For fiscal year 2004, benefits amounted to \$1.5 million, an increase of \$67 thousand (4.7 percent) from fiscal year 2003.

An actuarial valuation of the VFCA assets and benefit obligations is performed every two years. At July 1, 2004, the date of the most recent actuarial valuation, the funded status of the plan decreased to 69.94 percent from 71.82 percent at July 1, 2002. The VFCA actuarial assets were less than actuarial liabilities by \$8.6 million at July 1, 2004, compared with \$7.6 million at July 1, 2002. The decrease in funded status as of the last actuarial valuation is a result of the valuation recognizing the previous four-year investment performance.

Actuarial Valuations and Funding Progress

An actuarial valuation of each of the PERB's defined benefit plans is performed every two years. At the date of the most recent actuarial valuation, July 1, 2004, the funded status of each of the plans is shown in the Schedule of Funding Progress on page 72.

The PERB funding objective is to meet long-term benefit obligations through investment income and contributions. Accordingly, the collection of employer and member contributions, and the income from investments provide the reserves needed to finance future retirement benefits. Since investment earnings are critical to the defined benefit plans' funding, the market decline and associated investment losses in fiscal year 2001 and fiscal year 2002 have deteriorated the plans' funding. The investment losses have reduced the as-

sets available to pay previously incurred benefit obligations. The investment losses have increased the unfunded liability of the plans. Public pension plans are considered actuarially sound if the unfunded accrued actuarial liability amortization period is less than 30 years. Montana's constitution requires that public retirement plans be funded on an actuarially sound basis.

The PERB has been concerned with the funding of three of the eight defined benefit retirement plans administered. The three plans are the PERS - Defined Benefit Retirement Plan (PERS-DBRP), the Game Wardens' and Peace Officers' Retirement System (GWPORS) and the Sheriffs' Retirement System (SRS). These plans' statutory contribution rates are able to pay the normal cost of the plan, but are insufficient to pay off unfunded liability. Based on the PERB's June 30, 2004 Actuarial Valuations the unfunded liability in these three plans will not be amortized in 30 years. As of June 30, 2004, the estimated shortfalls in statutory contributions rates were 1.19% in PERS-DBRP, 0.23% in GWPORS, and 2.15% in SRS. The Board has drafted legislation for the 2005 Legislative Session to address these insufficiencies.

Funding ratios range from a high of 129.98 percent to a low of 57.48 percent. The Schedule of Funding Progress on page 72 shows the July 1, 2004 funding ratios compared with the ratios at July 1, 2002 and July 1, 2000. The table also shows the amount by which actuarial assets exceeded or fell short of actuarial liabilities. The funding ratio decline is a result of the overall investment performance of the past four years. At July 1, 2004, the actuarial value of assets exceeded the market value of assets by \$21 million compared with \$611 million at July 1, 2000.

Defined Contribution Plans

The MPERA administers two defined contribution plans: The Public Employees' Retirement System - defined contribution retirement plan (PERS-DCRP) and the Deferred Compensation (457) Plan. The schedules of Net Assets and Changes in Net Assets for the two defined contribution plans are on the following page.

PERS-DCRP

The PERS-DCRP is established under Section 401(a) of the Internal Revenue Code. This plan provides retirement benefits for plan members. This plan was available to all active PERS members effective July 1, 2002. The plan member and employer contributions and earnings on investments fund the benefits of the plan.

The PERB has received a long-term INTER-CAP loan through the Montana Department of Administration from the BOI to fund the

plan start-up and implementation costs. As of June 30, 2004, the loan balance is \$1.4 million. The loan was renegotiated in 2004 and the term extended to 2018.

The plan net assets held in trust for benefits at June 30, 2004 amounted to \$19.3 million, an increase of \$4.4 million (29.7 percent) from \$14.9 at June 30, 2003.

Additions to the Defined Contribution Retirement Plan net assets held in trust for benefits include contributions and investment income. Contributions decreased \$11.8 million (71 percent) from \$16.5 million in fiscal year 2003 to \$4.7 million in fiscal year 2004. Contributions decreased because the initial window for the majority of participants closed at the end of fiscal year 2003. The plan recognized net investment income of \$2.4 million fiscal year 2004, up from \$551 thousand in fiscal year 2003.

Deductions from the Defined Contribution Retirement Plan net assets mainly include member refunds/distributions, administrative expenses and miscellaneous expenses. Refunds/distributions increased from \$629 thousand in fiscal year 2003 to \$2.2 million in fiscal year 2004. The \$1.6 million increase in refunds/distributions from 2003 to 2004 was due to the majority of the existing members not transferring to the DCRP until the end of 2003 and any refunds/distributions from those members did not occur until 2004. The costs of administering the plan decreased from \$552 thousand in fiscal year 2003 to \$214 thousand in fiscal year 2004, a decrease of \$337.7 thousand (61.0 percent) from fiscal year 2003. The decrease in administrative costs was mainly due to a reduction in initial plan implementation costs experienced in the first year of operation.

Deferred Compensation (457) Plan

The Deferred Compensation Plan is established under Section 457 of the Internal Revenue Code. This plan is voluntary and provides supplemental retirement benefits for plan participants. The Deferred Compensation Plan is funded by contributions and by investment earnings. The plan net assets held in trust for benefits at June 30, 2004 amounted to \$224.8 million, an increase of \$16.4 million (8.0 percent) from \$208 million at June 30, 2003.

Additions to the Deferred Compensation Plan net assets held in trust for benefits include contributions and investment income. For fiscal year 2004, contributions decreased from those of fiscal year 2003 from \$15.0 million to \$14.9 million, a decrease of \$95 thousand (0.6 percent). Contributions decreased because of decreased contributions by current participants. The majority of participants are state employees and there has been a pay freeze on state wages. The plan recognized net investment income of \$16.1 million for fiscal year 2004 compared with net investment income of \$8.5 million for fiscal year 2003. The increase in investment income is mainly due to the turnaround in the equity market.

Deductions from the Deferred Compensation Plan net assets mainly include member and beneficiary refunds/distributions, administrative expenses and miscellaneous expenses. For fiscal year 2004, refunds/distributions amounted to \$14.4 million, an increase of \$3.8 million (35.6 percent) from \$10.6 at June 30, 2003.

Public Employees' Retirement Board

A Component Unit of the State of Montana

Notes to the Financial Statements

for the Fiscal Years Ended June 30, 2004 and 2003

The Public Employees' Retirement Board (PERB) administers ten retirement plans and the related member education plans. The retirement plans are eight defined benefit plans and two defined contribution plans. The *defined benefit* retirement plans are the Public Employees' Retirement System (PERS-DBRP), Judges' Retirement System (JRS), Highway Patrol Officers' Retirement System (HPORS), Sheriffs' Retirement System (SRS), Game Wardens' and Peace Officers' Retirement System (GWPORS), Municipal Police Officers' Retirement System (MPORS), Firefighters' Unified Retirement System (FURS), and the Volunteer Firefighters' Compensation Act (VFCA). The *defined contribution* retirement plans are the Public Employees' Retirement System (PERS-DCRP) and the Deferred Compensation (IRC § 457) Plan. The PERS-DCRP was implemented as of July 1, 2002. All PERS new hires after July 1, 2002 have a twelve-month window from their date of hire to file an election. The Deferred Compensation Plan is available to employees of the state, university and local political subdivisions that contract with the plan.

PERS members are provided member education as a tool to help them decide between participation in the Defined Benefit Retirement Plan (PERS-DBRP) or the Defined Contribution Retirement Plan (PERS-DCRP). If members are employees of the university system they have a third choice, the Optional Retirement Program (ORP). The plan choice is a one-time irrevocable election. Education is also available for the members who choose

the PERS-DCRP and ORP. This education includes information on investment choices.

The assets of each plan are maintained separately, including member education funds, and may be used only for the payment of benefits to the members and administrative expenses of the appropriate plan, in accordance with the terms of each plan as prescribed in Title 19, of the Montana Code Annotated (MCA). The financial statements are presented by combining the PERS-DBRP and the DBRP Education fund and by combining the PERS-DCRP, the DCRP Education Fund and the Disability Fund. A presentation of each individual fund is shown at the end of the financial section.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF ACCOUNTING

The PERB is a discretely presented component unit Pension Trust Fund of the State of Montana financial reporting entity. The Montana Public Employee Retirement Administration (MPERA), staff of the PERB, prepares the accounting records and financial statements for the fiduciary/pension trust funds using the accrual basis of accounting. For the pension trust funds, member contributions are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Revenues are recognized in the accounting period in which

they are earned and become measurable. Benefits and refunds/distributions are recognized in the accounting period in which they are due and payable. Expenses are recognized in the period incurred. Administrative expenses are financed through investment earnings on the pension trust fund for the defined benefit plans. Interfund receivables and payables exist at year-end because all defined benefit administrative expenses are accounted for within PERS-DBRP and then allocated to the other defined benefit plans at year-end.

Adjustments to the fiscal year 2004 financial statements consist of prior period adjustments to all plans recording the web based employer reporting software and the applicable depreciation and adjustments to the 457 plan based on more accurate information on the fixed asset account received from State Street Kansas City, the custodial bank.

Participants of the PERS-DCRP are charged, on a quarterly basis, a flat fee plus a basis point fee on their account balance. The flat fee covers the recordkeeping provided by Great West Retirement Services (Great West). The basis point fee is returned to the PERB to cover the PERB's administrative expenses of the plan. The fees returned to the PERB are recorded as *Miscellaneous Revenue* in the financial statements

Participants of the deferred compensation (457) plan are charged fees, quarterly, based on individual account balances. The record keeper, Great West, withholds fees and after payment of the Great West's contractual expenses, the excess fees are submitted to the PERB. The excess fees, recorded as *Miscellaneous*

Revenue in the financial statements, are used to pay the PERB's related administrative expenses.

2. CAPITAL ASSETS AND EQUIPMENT USED IN OPERATIONS

Assets under \$5,000 are expensed in the year purchased. Assets valued at \$5,000 or more, are recorded at cost less straight-line depreciation over the estimated useful life of five to ten years. Equipment for MPERA consists of a microfiche reader/printer and capital assets include the web based employer reporting software. The accumulated depreciation on our web based reporting system is \$625,560 and \$325,291, respectively as of June 30, 2004 and 2003. The carrying value as of June 30, 2004 and 2003 is \$575,515 and \$875,784, respectively. For the 457 web based employer reporting system the accumulated depreciation is \$3,341 and the carrying value is \$157,039.

3. OPERATING LEASE

Operating leases are rental agreements where the payments are chargeable as rent and recorded as administrative expenses. MPERA entered into a 10 year lease for office space in November 2003 at the location of 100 North Park. The lease is payable monthly and includes inflationary adjustments over the period of the lease.

4. DERIVATIVES

The defined benefit and defined contribution retirement plans invest in derivatives as authorized by PERB policy. Derivatives are contracts for which the value depends on, or is "derived" from, the

FINANCIAL SECTION

value of an underlying asset, reference rate, or index. Derivative reporting in previous years was directed by a Technical Bulletin issued in 1994 by the Governmental Accounting Standards Board (GASB). In 2003 GASB adopted a new standard that is applicable as of June 30, 2003, which superseded the prior standard. The new standard provides disclosure requirements for governmental units holding derivatives that are not reported at fair value in the statement of net assets. If applicable, derivatives are disclosed within the investment summaries that begin on this page.

5. METHOD USED TO VALUE INVESTMENTS

Defined benefit retirement plan assets are invested on behalf of the plans by the Montana Board of Investments (BOI), Department of Commerce. Investments are purchased in accordance with the statutorily and constitutionally mandated “prudent expert principle.” Investments are reported at fair value. As of June 30, 2004, there were five major diversified pools, the same number as in fiscal year 2003, Montana Short Term Investment Pool (STIP), Retirement Funds Bond Pool (RFBP), Montana International Pool (MTIP), Montana Private Equity Pool (MPEP) and the Montana Domestic Equity Pool (MDEP).

The PERS-DCRP and the deferred compensation plan’s fixed assets were invested and managed on behalf of the plan by Pacific Investment Management Company (PIMCO)/State Street Bank Kansas City (SSKC). The third party record keeper, Great West Retirement Services, tracks and reports the daily trading and valuations of all investment options in-

cluding the assets held by the individual mutual fund companies. Investments are reported at fair value as of June 30, 2004. The following are the PERB summaries of the BOI’s fiscal year end statements, the PIMCO/SSKC contract and a statement about the variable investments.

STIP portfolio may include asset-backed securities, commercial paper, corporate and government securities, repurchase agreements and variable-rate (floating-rate) instruments. These securities provide a diversified portfolio earning a competitive total rate of return. Funds may be invested for relatively short periods. State agencies are legally required to invest in STIP and the PERB elects to have all STIP income automatically reinvested. Investments are reported at fair value based on market prices supplied to the BOI by the BOI’s custodial bank. The unit value is fixed at \$1.00. A purchased unit earns income on the purchase date and ceases to earn income on the day before the unit is sold. STIP income reflects the monthly earnings of the STIP portfolio and is distributed on the first calendar day of the month, with the exception of the June distribution. Income for June is distributed on the last calendar day of the month. Administrative expenses incurred by the BOI are charged daily to STIP based on their expenses applicable to STIP. STIP did not participate in any securities lending transactions in fiscal year 2004. STIP investments are required to have the highest rating in the short term category by any Nationally Recognized Statistical Rating Organization. STIP is considered an external investment pool per the Governmental Accounting Standards Board (GASB) Statement No. 31 and is classified as a “2a7-like” pool. STIP is not registered with the Securities

and Exchange Commission (SEC) but does operate in a manner consistent with SEC rules. *Disclosure about Derivatives:* STIP holds two types of securities that are required to be disclosed per the GASB: 1) Asset-backed securities are collateralized by a pool of mortgage and non-mortgage assets pledged by the issuer. 2) Variable-rate (floating-rate) securities are sensitive to interest rate changes. STIP security transactions are recorded as of the trade date rather than the settlement date. Because of this generally accepted practice, the STIP portfolio at June 30 may include receivables from brokers for securities sold, but not delivered, and payables to brokers for securities purchased, but not received. There are no legal risks that the BOI is aware of regarding any STIP investments.

MDEP portfolio may include common stock, equity index, preferred stock, convertible equity securities, American Depositary Receipts and equity derivatives. The MDEP was established in April 2003. Effective May 1, 2003, the Public Employees', Judges', Highway Patrol Officers', Sheriffs', Game Wardens' and Peace Officers', Municipal Police Officers', Firefighters' Unified and Volunteer Firefighters' retirement funds transferred all the Barclays Global Investors (BGI) S&P 500 Equity Index Fund A and the Dimensional Fund Advisors (DFA) Small Cap Subtrust investments totaling \$740 million, at cost, from the All Other Funds portfolio to the new pool. The pension also exchanged their investment in the Montana Stock Pool (MTCP) for units in the new MDEP. In July 2003, the BOI closed the STIP account and a Stock Performance Index Futures Fund (SPIFF) account was opened to securitize MDEP cash by investing in an equity derivative.

The value of MDEP units purchased by participants increased \$37 million in fiscal year 2004 while the value of MDEP units sold increased by \$86 million based on changes in the market. The fiscal year 2004 and 2003 changes are the result of an asset allocation decision and do not reflect a change from the stated investment policy to increase retirement fund exposure to equity investments. In fiscal year 2004, MDEP participants bought and sold units at a price ranging from \$108 to \$125 per unit. The increase of \$407 million in the change in fair value reflects the equity market appreciation since fiscal year 2003. Investments are presented at fair value. Equity investments, on valuation date, are stated at the closing price of the security's primary exchange. Depending on stock market conditions and the investment officer's decision, MDEP participants may then buy or sell units on the first calendar day of each month. MDEP security transactions are recorded as of trade date rather than settlement date. Because of this generally accepted practice, the MDEP portfolio at June 30 may include receivables from brokers for securities sold but not delivered, and payables to brokers for securities purchased but not received.

On October 11, 2002, the BOI received a summons and complaint regarding the bankruptcy of Owens-Corning. The company seeks a determination that the dividend payments paid from October 1996 through July 2000 represent "fraudulent transfers under Chapter 11 Bankruptcy provisions and applicable state law, and are, therefore, voidable". The complaint states the BOI was the "recipient of dividends in the amount of \$357,099 for the relevant period". The BOI has prepared a response to the complaint.

FINANCIAL SECTION

RFBP portfolio includes corporate asset-backed, other corporate, U.S. government mortgage-backed, U.S. government, Yankee securities and cash investments. RFBP investments are presented at fair value. Fair values are determined, primarily, by reference to fair prices supplied to the BOI by its custodial bank, State Street Bank and Trust. Premiums and discounts are amortized/accreted using the straight-line or scientific method to the call, average life or maturity date of the securities. Unit values are calculated weekly and at month end, based on portfolio pricing, to allow for participant transactions to occur as determined by the BOI's Investment Officer. The June 30, 2004 unit value of \$104.32 decreased from the June 30, 2003 unit value of \$110.84. The yield on bonds increased during the fiscal year, which has the effect of decreasing bond prices and the pool unit value. The pension funds were rebalanced in fiscal year 2004 to adjust the portfolios towards the stated equity/fixed income allocation. RFBP security transactions are recorded as of the trade date rather than the settlement date. Because of this generally accepted practice, the RFBP portfolio at June 30 may include receivables from brokers for securities sold, but not delivered, and payables to brokers for securities purchased, but not received. Accumulated income is distributed monthly on the first calendar day of the month. Realized portfolio gains/losses are distributed at least annually. Administrative expenses incurred by the BOI are charged daily to RFBP based on the BOI's expenses applicable to RFBP. *Disclosure about Derivatives:* The RFBP portfolio includes structured financial instruments known as REMICs (Real Estate Mortgage Investment Conduits). These securities are required to be disclosed per the GASB. REMICs

are pass-through vehicles for multiclass mortgage-backed securities. Some REMICs are interest-only strips (IOs).

As of June 30, 2004 and June 30, 2003, Burlington Industries, Inc. presented legal and higher credit risks to the BOI. The BOI owns a Burlington Industries, Inc., \$6 million par, 7.25% bond maturing September 15, 2005. In September 2000, the company announced a reduction of stockholders equity. Due to an increasing senior bank line and declining credit trend, the bond ratings for this issue were downgraded, in May 2001, by the Moody's and Standard & Poor's rating agencies. During fiscal year 2001, the book value of Burlington Industries Inc. was reduced from the August 31, 2000 book value of \$5.6 million to \$2.4 million. Due to the company's filing for Chapter 11 bankruptcy protection on November 11, 2001, the book value was reduced to \$1.2 million. In October 2003, Burlington Industries, Inc. received court approval to sell its assets. Under the company's recovery plan, the BOI received \$1.5 million in August 2004 for its unsecured claim. This transaction reduced the book value to \$0 and generated a gain of \$255 thousand. The BOI is expected to receive additional proceeds for its claim.

As of June 30, 2003, Enron Corp. presented legal and higher credit risks to the BOI. The RFBP holds a \$7 million par 6.40% Enron bond maturing July 15, 2006 and a \$7 million par 6.95% Enron bond maturing July 15, 2028. The combined book value of these securities was \$13.5 million as of November 30, 2001. On December 12, 2001, the Enron Corp. filed for Chapter 11 bankruptcy protection. Accordingly, the November 2001 book value for the two issues was reduced

to \$5.6 million as of June 30, 2002. In October 2002, the book value was reduced to \$2.8 million for both issues. In July 2003, both issues were sold, on the market, for a total of \$2.36 million.

The BOI received a summons and complaint, dated September 3, 2002, regarding the sale of a Pennzoil Quaker State, \$5 million par, 6.75% corporate bond maturing April 1, 2009. Deutsche Bank Securities claims a “breach of contract” for the March 25, 2002 sale of the bond at a price of \$94.669 plus accrued interest. Deutsche Bank Securities seeks damages of \$538,632 for the additional costs incurred to acquire the bond from third parties, plus any statutory interest, costs and expenses. On October 1, 2002, Shell Oil Company acquired Pennzoil and subsequently announced a public tender of Pennzoil Quaker State debt. The BOI tendered the Pennzoil Quaker State holdings on October 8, 2002 at a price of \$113.099. The tender was accepted with a settlement date of November 1, 2002. On November 4, 2002, the BOI received \$5.7 million in principal and interest plus \$150,000 as a consent fee. As of September 10, 2004, this matter is still pending.

MTIP portfolio includes equities in four externally managed funds at June 30, 2004: Pyrford International, Schroder Investment Management NA, Barclays Global Investors and Nomura Asset Management U.S.A., Inc. from December 2003. During fiscal year 2004, the MTIP portfolio included investments in six funds. The remaining funds which were discontinued in fiscal year 2004 were: the internally managed fund, BOI Internal International, closed in January 2004 and on October 30, 2003, the BOI voted to replace SG Yamaichi Asset Management,

Co. as an active manager with Nomura Asset Management U.S.A., Inc. The change was effective December 1, 2003. The four funds invest in securities of foreign-based corporations listed on legal and recognized foreign exchanges as well as domestic exchanges. Because transactions are recorded as of the trade date rather than settlement date, the MTIP portfolio may include receivables from brokers for securities sold, but not delivered, and payables to brokers for securities purchased, but not received. Investments are presented at current U.S. dollar value after conversion from foreign currency by the custodial bank, State Street Bank and Trust. The four funds’ cash, receivables, fair value of investment securities, other assets and liabilities are translated into U. S. dollars at the Interactive Data Control 11:00 am EST exchange rate as of the balance sheet date. Unit values are calculated weekly and once a month at the close of the last business day of the month, based upon the fair value of the MTIP equity holdings, other assets and liabilities. Based on the BOI Investment Officer’s decision, participants are allowed to buy or sell units on the first business day of each month. Realized gains/losses from the sale of securities and related foreign exchange transactions are retained by each fund. MTIP income is distributed at least monthly to the retirement funds, net of external manager fees and administrative expenses, on the first business day of the following month.

MPEP portfolio includes venture capital, leveraged buyout, mezzanine, distressed debt, special situation and secondary investments. The MPEP was established in April 2002 to allow retirement funds the opportunity to participate in the venture capital and leveraged buyout markets and

FINANCIAL SECTION

other private equity investments via a diversified pool. The BOI chose to securitize MPEP cash by investing in an equity derivative, the State Street Stock Performance Index Futures Fund (SPIFF). Given the complexity and specialization of private equity investment, the BOI contracts with seven private equity managers. The private equity managers include Adams Street Partners (formerly Brinson Partners); Kohlberg, Kravis, Roberts and Company (KKR); Welsh Carson Anderson and Stowe; Madison Dearborn Partners; Lexington Partners; Oaktree Capital Management and Arc Light Energy Partners. Investments are presented at fair value and because no recognized market exists for private equity investment, the investments, on valuation date, are stated at the fair value reported in the most recent external managers' valuation reports. Carrying value represents the private equity security purchase price. MPEP security transactions are recorded as of trade date rather than settlement date; therefore, the MPEP portfolio at June 30 may include receivables from brokers for securities sold but not delivered, and payables to brokers for securities purchased but not received. Unit values are calculated at month end and participant transactions will most likely occur on a quarterly basis. Administrative expenses incurred by the BOI are charged daily to the MPEP based on the BOI's expenses applicable to MPEP. Based on the BOI Investment Officer's decision, participants are allowed to buy, reinvest or sell units on the first business day of each month. Private equity investments are recognized as investments with a higher degree of risk with a higher return potential. Portfolio diversification of risk is to be achieved through multiple partnership relationships and investments

diversified by time, financing stage, industry sector, investment size and geographical region. Private equity investments typically have a low correlation relative to other investment asset classes and should contribute to reduction of portfolio risk. The Montana BOI is a limited partner in the private equity partnership of O'Donnell & Masur L.P., which invested in Gardiner Communications, Inc. All partners received a Notice of Liability from the Internal Revenue Service claiming unpaid federal corporate taxes for Gardiner Communications, Inc. As a recipient of the distributions on the sale and dissolution of Gardiner Communications, Inc., the BOI faces potential liability. O'Donnell & Masur L.P. has retained legal counsel to represent all partners receiving a Notice of Liability. On September 5, 2003, legal counsel filed a petition on the Montana BOI's behalf in U.S. Tax Court to perfect the right to contest this matter. On February 9, 2004, all partners of O'Donnell & Masur L.P. were informed that the Internal Revenue Service Appeals Officer had completed his review of the Gardiner Communications, Inc. matter. The Officer concluded "no additional taxes are due from Gardiner Communications, Inc. and thus, no transferee liability to the partners of O'Donnell & Masur, L.P." MPEP does not participate in securities lending.

All Other Investments for the pension plans include equity index, real estate, mortgages and commercial loans. Fair values are determined, primarily, by reference to fair value prices supplied to the BOI by its custodial bank, State Street Bank and Trust. Effective May 1, 2003, all the Barclays Global Investors S&P 500 Equity Index Fund A and the Dimensional Fund Advisors U.S. Small Cap

Trust investments totaling \$740 million were transferred to the new MDEP. The real estate investments and residential and multifamily mortgages are valued based on a discounted cash flow. Premiums and discounts are amortized/accreted using the straight-line or scientific method to the call, average life or maturity date of the securities. Amortized cost may also be referred to as book value. The Mortgages and Commercial loans receivable consist of residential mortgages and multifamily commercial loans. As of June 30, 2004 and 2003, there were no uncollectible account balances for Mortgages and Commercial loans. The sale of pool units in fiscal year 2004 from the MDEP, MPEP and RFBP resulted in a net gain to participants of \$73 million. In fiscal year 2003, the sale of pool units from the MPEP, TFBP, RFBP and MTCP generated a net gain to participants of \$41 million. Real estate investments held, in part, for the PERS include buildings at 100 North Park Avenue in Helena, MT; a newly constructed building at 2273 Boot Hill Court in Bozeman, MT; a building at 2401 Colonial Drive in Helena, MT; and property located on California Street in Helena, MT. The BOI also holds the building located at 1712 Ninth Avenue in Helena, MT for the sole benefit of the PERS.

Securities Lending Collateral, governed under the provisions of state statutes, authorizes the custodial bank, State Street Bank and Trust, to lend the BOI's securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. This is accomplished by the BOI via a Securities Lending Authorization Agreement. During the period the securities are on loan, the BOI receives a

fee and the custodial bank must initially receive collateral equal to 102 percent of the fair value of the loaned security and maintain collateral equal to not less than 100 percent of the fair value of the loaned security. The BOI retains all rights and risks of ownership during the loan period. During fiscal years 2004 and 2003, State Street Bank and Trust loaned, on behalf of the BOI, certain securities held by State Street Bank and Trust, as custodian, and received U.S. dollar currency cash, U.S. government securities, and irrevocable bank letters of credit. State Street Bank and Trust does not have the ability to pledge or sell collateral securities unless the borrower defaults. The BOI did not impose any restrictions during fiscal year 2004 and 2003 on the amount of the loans that State Street Bank and Trust made on its behalf. There were no failures by any borrowers to return loaned securities or pay distributions thereon during fiscal years 2004 and 2003. Moreover, there were no losses during fiscal years 2004 and 2003 resulting from a default of the borrowers or State Street. During fiscal years 2004 and 2003, the BOI and the borrowers maintained the right to terminate all securities lending transactions on demand. The cash collateral received on each loan was invested, together with the cash collateral of other qualified plan lenders, in a collective investment pool, the Securities Lending Quality Trust. The relationship between the average maturities of the investment pool and the BOI's loans was affected by the maturities of the loans made by other plan entities that invested cash collateral in the collective investment pool, which the BOI could not determine. For MDEP as of June 30, 2004, the carrying and fair values of the underlying securities on

FINANCIAL SECTION

loan were \$18.8 million and \$20.3 million, respectively. The cash collateral provided for the securities on loan totaled \$20.6 million. For RFBP as of June 30, 2004, the carrying and fair values of the underlying securities on loan were \$198.6 million and \$210 million, respectively. The cash collateral provided for the securities on loan totaled \$215.7 million. For MTIP as of June 30, 2004, the carrying and fair values of the underlying securities on loan were \$33.1 million and \$41.7 million, respectively. The cash collateral provided for the securities on loan totaled \$43.8 million. For All Other Funds as of June 30, 2004, the carrying and fair values of the underlying securities on loan were \$219 million and \$222.2 million, respectively. The collateral provided for the securities on loan totaled \$226.7 million in cash and \$1.4 million in collateral.

Fixed investments are administered through outside vendors Pacific Investment Management Company (PIMCO) and custodial bank State Street Bank Kansas City (SSKC). The PERS-DCRP fixed money is invested in a PIMCO mutual fund. The deferred compensation fixed investment is a separately managed fund that is benchmarked against the Lehman Intermediate Government/Credit/Yankee index with a duration not to exceed four years. The minimum average portfolio quality must be an A-rating; the minimum issue quality must be a BB-rating and the minimum commercial paper quality must be A2/P2. The quality ratings applied are the higher of Moody's, Standard & Poor or Fitch. PIMCO has the discretion to invest in a broad array of public and private asset classes and investment vehicles including: money market instruments; U.S. Treasury and

Agency notes and bonds; municipal bonds; corporate securities; Yankee and Euro bonds; mortgage-backed securities; mortgage derivatives; asset-backed securities; convertible securities; non-U.S. dollar denominated securities; non-leveraged structured notes; futures; options; swaps; credit default swaps and PIMCO pooled funds. All investments including those with derivative characteristics are reported at fair value; therefore, no additional disclosures are required. PIMCO may not invest in: caps and floors; preferred stock; emerging market securities; event-linked bonds and bank loans.

Variable investments are held and managed by a selection of retail and institutional mutual funds, which cover all standard asset classes and categories. The selection of offered mutual funds is designed to provide plan participants with the ability to diversify and meet their individual investment goals and strategies. The PERB, with the advice of the statutorily created Employee Investment Advisory Council and the assistance of an independent contracted third-party consultant and investment analyst, conducts an annual review of the offered mutual funds. During the annual review, the PERB may decide to retain, replace or place in a watch status, any of the offered mutual funds. The goal of the annual review is to ensure the offered mutual funds meet standards established in the Investment Policy Statement adopted by the PERB. Mutual Funds are listed on pages 63 and 66 or a listing can be obtained by contacting the MPERA.

B. LITIGATION

Each of the plans administered by the PERB may be involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management and legal counsel, the disposition of most of the matters will not have a material, adverse affect on any plan's financial position as a whole. The potential effect of the case discussed below has not been determined.

A lawsuit, *Baumgardner v. PER Board* (Cause No. ADV-2002-450), has been filed challenging the constitutionality of that portion of Chapter 149, laws of Montana 2001 which, in the definition of "actuarial equivalent", substituted "the mortality table and interest rate assumptions adopted by the Board" for "the 1971 Group Annuity Mortality Table, with ages set back 4 years and an interest rate of 8% compounded annually". This amendment was effective March 29, 2001. Subsequent to the legislation, effective July 1, 2001, the Public Employees' Retirement Board adopted new actuarial assumptions, including new mortality tables, resulting in new actuarial equivalent option factors. The legal challenge is the use of these new actuarial equivalent option factors in determining the actuarial equivalent benefit payout when a single life benefit is converted to an alternate form of benefit payment. The plaintiff seeks recalculation of benefit payments and attorney's fees. The action was filed by a PERS member, but could affect other systems where members have the option to choose a benefit payment other than for the member's life only.

Three constitutional claims have been

made: 1) that the legislation contained more than one subject matter, not properly reflected in the title; 2) that the legislation was an unconstitutional delegation of legislative authority; and 3) that the legislation constituted an unconstitutional impairment of contract. The district court has dismissed the first claim; found in favor of the plaintiff on the second claim; and found the third claim moot. The PERB's request for supervisory control by the Montana Supreme Court was denied. Appeal of the district court's holding on the second claim is now being pursued. Requested amendments allowing two additional claims (violation of equal protection and noncompliance with the Montana Administrative Procedure Act in the adoption of the new option factors) were not ruled on by the district court, which has implied they are moot.

An adverse decision would have different actuarial consequences depending on the claim and the breadth of the court's holding. If, as the district court has implied, the legislature cannot delegate any benefit-related actuarial function to the Board, the actuarial consequence of such a ruling would be immaterial, as all members would be required to take a single-life benefit (which all actuarial equivalent forms currently are presumed to equal). If, as the district court has held, only the new mortality table is unconstitutional, then use of the mortality table specified in statute prior to March 29, 2001 would have a minimal actuarial impact on the system.

The likelihood of prevailing on appeal regarding the second claim, delegation of legislative authority, is believed to be very probable. Accurately assessing the chances of ultimately prevailing on all

FINANCIAL SECTION

claims and possible amendments is very difficult due to the complexity of the issues presented and status of the case.

C. DEBT OBLIGATIONS

The PERS defined contribution retirement plan has an implementation loan through the Department of Administration, with the BOI. Authorization for the INTERCAP loan was provided by the Legislature, Chapter 471, Laws of 1999. Five draws were taken in the total amount of \$1,498,000. Interest repayments began immediately following the draws. Principal repayments began August 15, 2003, the year following the DCRP implementation date. The loan was renegotiated as a single sum in fiscal year 2004 to be repaid over a period of 15 years. The interest rate is variable and changes every

February, impacting the interest due on the outstanding principal balance.

An inter-entity loan in the amount of \$114,000 was made to the PERS-DCRP from the DB Education Fund on August 18, 2003 to help cover the costs of the DCRP expenses. The term of this loan is for two years and the interest rate to be repaid to the defined benefit education fund is the same as STIP. The first repayment of \$28,500 plus interest was made in June 2004, in advance of the actual due date. The remaining principal balance of the inter-entity loan is \$85,500 and is due in August 2005.

Debt service requirements (principal & interest) for the defined contribution plan are explained in the following two charts:

Schedule of Debt Repayment				
INTERCAP Loan				
Fiscal Year Ended	Rate*	Principal	Interest	Total
2005	2.70%	\$ 10,000	\$ 37,737	\$ 47,737
2006	2.70%	10,000	37,467	47,467
2007	2.70%	20,000	37,129	57,129
2008	2.70%	30,000	36,521	66,521
2009	2.70%	40,000	35,644	75,644
2010-2018	2.70%	<u>1,290,195</u>	208,286	<u>1,498,480</u>
		\$ 1,400,195		\$ 1,792,979

* Interest rate is variable. As of June 30, 2004 the interest rate was 2.7 %

Schedule of Debt Repayment				
Inter-Entity Loan				
Fiscal Year Ended	Rate*	Principal	Interest	Total
2006	1.10%	\$ 85,500	\$941	\$ 86,441
		<u>\$ 85,500</u>		<u>\$ 86,441</u>

*Interest rate is variable. As of June 30, 2004 the interest rate was 1.10%

FINANCIAL SECTION

D. PLAN MEMBERSHIP, DESCRIPTIONS AND CONTRIBUTION INFORMATION

The plans are established and amended statutorily by the Legislature. In all defined benefit plans (except VFCA), if a member leaves covered employment before retirement, the member contributions plus accrued interest may be refunded to the member. If a member returns to service and repays the withdrawn contributions plus the

interest the contributions would have earned had they remained on deposit, membership service is fully restored.

Membership of each plan as of June 30, 2004 and June 30, 2003 is detailed in the following charts:

PERS-DBRP Membership					
	<u>2004</u>	<u>2003</u>		<u>2004</u>	<u>2003</u>

Public Employees’ Retirement System-DBRP

Plan Description: The PERS-defined benefit retirement plan (DBRP) is a multiple-employer, cost-sharing plan established July 1, 1945, and governed by Title 19, chapters 2 & 3, Montana Code Annotated (MCA). This plan covers the State, local governments and certain employees of the university system and school districts.

All new hires are initially members of the PERS-DBRP. New hires have a 12-month window during which they may choose to remain in the PERS-DBRP or join the PERS-DCRP. Members may not be members of both the *defined contribution* and *defined benefit* retirement plans. The choice is irrevocable. All new hires of the universities also

have a third option to join the university system’s Optional Retirement Program (ORP). For members that choose to join the PERS-DCRP or the ORP, a percentage of the employer contribution will be used to maintain the funding of the PERS-DBRP.

The PERS-DBRP provides retirement, disability and death benefits to plan members and their beneficiaries. Benefits are established by state law and can only be amended by the Legislature. Benefits are based on eligibility, years of service and highest average compensation. Member rights are vested after five years of service. A brief summary of eligibility and benefits follows:

PERS-DBRP Summary of Benefits

Member’s highest average compensation (HAC)

Highest average compensation during any consecutive 36 months

Years of service required and/or age eligible for benefit

Service retirement:

- 30 years, any age;
- Age 60, 5 years of service; or
- Age 65, regardless of service

Early retirement, actuarially reduced:

- Age 50, 5 years of service; or
- Any age, 25 years of service

Vesting 5 years

Monthly benefit formula

Less than 25 years of membership service: 1.785% of HAC per year of service credit;
 25 years of membership service or more: 2% of HAC per year of service credit

Guaranteed Annual Benefit Adjustment (GABA)

After the member has completed 12 full months of retirement, the member’s benefit increases by a maximum of 3% each January, inclusive of other adjustments to the member’s benefit

FINANCIAL SECTION

At June 30, 2004 PERS had 526 participating employers, an increase of five from FY2003. The participating employers consist of:

PERS-DBRP EMPLOYERS		
<u>Employers</u>	<u>June 30, 2004</u>	<u>June 30, 2003</u>
State Agencies	35	34
Counties	55	55
Cities and Towns	94	93
Colleges and Universities	5	5
School Districts	237	237
High Schools	5	5
Other Agencies	<u>95</u>	<u>92</u>
Total	526	521

Contributions: Member and employer contribution rates are established by state law and may be amended only by the Legislature. The member contribution rate for fiscal year 2004 was 6.9% of PERS-covered payroll, the same as in fiscal year 2003. Contributions are deducted from each member's salary and remitted by participating employers. An individual account is established for each member's contributions and interest allocations until a request for retirement or refund is processed. Each state agency and university system employer contributed 6.9% of PERS-covered payroll during fiscal years 2004 and 2003. Participating local governments and school district employers contributed 6.8% of PERS-covered payroll during fiscal years 2004 and 2003. The State contributed the remaining 0.1% for local governments and school district employers from the state general fund in fiscal years 2004 and 2003. A percentage of the employers' contributions is used to fund the employee education program. (Reference Schedule of Contribution Rates on page 71).

PERS-DBRP Membership by Employer		
<u>Employer Type</u>	<u>June 30, 2004</u>	<u>June 30, 2003</u>
State Agencies	10,528	10,757
Counties	5,470	5,504
Cities	3,012	3,020
Universities	2,561	2,499
High Schools	60	59
School Districts	5,404	5,619
Other Agencies	<u>1,166</u>	<u>1,146</u>
Total	28,201	28,604

Plan Membership Elections: MPERA has also included in the financial statements transfers of \$27 thousand to Transfers to DCRP and \$5 thousand to Transfers to ORP. These transfers reflect the DCRP and ORP contributions of participants that filed elections at or near the June 30th cutoff date but the contributions were moved in early fiscal year 2005.

Additional Service Purchase: A provision (19-2-706, MCA) related to the Employee Protection Act allows state and university system employees, who are eligible for a service retirement and whose positions have been eliminated, to have their employer

pay a portion of the total cost of purchasing up to three years of "1-for-5" additional service. As of fiscal year 2004, three hundred eight employees had taken advantage of this provision since its inception, up from two hundred seventy-seven in fiscal year 2003. The employer has up to ten years to complete payment for the service purchases and is charged 8% interest on the unpaid balance. The retirement incentive contributions received (including interest) during fiscal years 2004 and 2003 totaled \$419,789 and \$371,473, respectively. The outstanding balance at June 30, 2004, totaled \$215,459.

Public Employees' Retirement System-DBRP Education Fund: Education is provided to all members of the PERS regardless of plan choice as governed by section 19-3-112, MCA. The education must be presented with impartial and balanced information about plan choices, investments and retirement planning. The education program consists of three primary components:

- 1) initial transfer education - complete as of July 1, 2003;
- 2) ongoing transfer education - for new hire members after the July 1, 2002 plan start date; and
- 3) ongoing investment/retirement planning

Plan Description: The JRS is a single-employer defined benefit plan established in 1967, and governed by Title 19, chapters 2 & 5 of the MCA. This system provides benefits for all Montana judges of the district courts, justices of the Supreme Court, and the Chief Water Judge. Benefits are established by state law and can only be amended by the Legislature. The JRS provides retirement, disability and death benefits to plan members and their beneficiaries. Benefits are based on eligibility, years of service and compensation. Mem-

education - for all active members.

The education program was funded by 0.04% of PERS-covered payroll in fiscal year 2004 the same as fiscal year 2003.

Actuarial Status: The statutory funding rate is tested in the valuation to determine if it is sufficient to cover the Normal Cost Rate plus an amortization payment of the Unfunded Actuarial Liability, if any, over no more than 30 years. Based on the current Actuarial Value of Assets and all future experience emerging as assumed, the Unfunded Actuarial Liability will not be amortized over the next 30 years. In general, the deterioration of the funded status is primarily due to recognizing prior investment losses due to returns less than the long-term assumed rate of 8% per year. Based on the actuarial assumptions as of June 30, 2004, an additional funding rate of 1.19% of payroll would be required to fund the current and projected benefits from the System in accordance with GASB standards and state law.

Judges' Retirement System

ber rights are vested after five years of service. A brief summary of eligibility and benefits is on the following page:

JRS Summary of Benefits

FINANCIAL SECTION

Member's current salary¹ or highest average compensation (HAC)²

¹Hired prior to July 1, 1997 and non-GABA — monthly compensation at time of retirement;

²Hired after June 30, 1997 or electing GABA — HAC during any consecutive 36 months

Years of service required and/or age eligible for benefit

Age 60, 5 years of service;

Any age with 5 years of service — involuntary termination, actuarially reduced

Vesting 5 years

Monthly benefit formula

3 1/3% of current salary¹ (non-GABA) OR HAC² (GABA) per year of service for the first 15 years, plus 1.785% per year for each year after 15 years

Guaranteed Annual Benefit Adjustment (GABA)

Hired after July 1, 1997, or those electing GABA - after the member has completed 12 full months of retirement, the member's benefit increases by a maximum of 3% each January, inclusive of all other adjustments to the member's benefit

Minimum benefit adjustment (non-GABA)

Hired prior to July 1, 1997 - current salary is used in the calculation of the monthly benefit each time the Legislature increases salaries for active judges.

At June 30, 2004 JRS had one participating employer, the same as FY2003. The participating employer consists of:

Contributions: Member and employer contribution rates are established by state law and may be amended only by the Legislature. The member contribution rate for fiscal years 2004 and

FINANCIAL SECTION

employer, defined benefit plan established July 1, 1971, and governed by Title 19, chapters 2 &

6 of the MCA. This system provides retirement benefits to all members of the Montana Highway Patrol, including supervisory personnel. Benefits are established by state law and can only be amended by the Legislature. The HPORS provides retirement, disability and death benefits to plan members and their beneficiaries. Benefits are based on eligibil-

ity, years of service and highest average compensation. Member rights are vested after five years of service. A brief summary of eligibility and benefits follows:

HPORS Summary of Benefits

Member's highest average compensation

(HAC)

Highest average compensation during any consecutive 36 months

Years of service required and/or age eligible for benefit

20 years of service, regardless of age;

5 years of service, actuarially reduced from age 60

Vesting 5 years

Monthly benefit formula

2.5% of HAC per year of service

Guaranteed Annual Benefit Adjustment (GABA)

Hired after July 1, 1997, or those electing GABA - after the member has completed 12 full months of retirement, the member's benefit increases by a maximum of 3% each January, inclusive of all other adjustments to the member's benefit

Minimum benefit adjustment (non-GABA)

Hired prior to July 1, 1997 - monthly benefits for non-GABA members are increased each July when they fall below a statutorily guaranteed minimum. Any annual increase is limited to 5% over the current benefit and may not exceed 60% of the current base salary of a probationary officer.

At June 30, 2004 HPORS had one participating employer, the same as FY2003. The participating employer consists of:

Contributions: Member and employer contribution rates are established by state law and may be amended only by the Legislature. The member contribution rates for fiscal years 2004 and

HPORS EMPLOYERS

Total	1	1

FINANCIAL SECTION

2003 are 9.05% of the member's total compensation if hired after June 30, 1997 or for members electing GABA and 9.0% for those members hired prior to July 1, 1997 and not electing GABA. Contributions are deducted from each member's salary and remitted by the participating employer. An individual account is established for each member's contributions and interest allocations until a retirement or refund request is processed. As the employer, the State contributed 36.33% of the total HPORS-covered payroll during fiscal years 2004 and 2003. The first 26.15% is payable from the same source used to pay members' compensation. The remaining amount, equal to 10.18%, is payable from a portion of the fees collected from drivers' license and duplicate drivers' license applications. (Reference Schedule of Contribution Rates on page 71).

Twenty-five cents of each motor vehicle registration fee must be deposited in the HPORS trust fund by the end of each fiscal year. This additional contribution funds the supplement-

ance. No employees have taken advantage of this provision to date.

Supplemental Benefit: Montana highway patrol officers retired prior to July 1, 1991, or their survivors, may be eligible for an annual supplemental lump-sum payment distributed each September. A portion of each motor vehicle registration fee funds this supplemental benefit. Many factors must be considered for eligibility, including the number of years the recipient has received a benefit and the recipient's age. The average annual supplemental payment in September 2004 was \$2,310. In September 2003, the average annual supplemental payment was \$2,292. This enhancement is available to non-GABA recipients only.

FINANCIAL SECTION

If hired before July 1, 1997 and member did not elect GABA, the monthly retirement, disability or survivor's benefit may not be less than ½ the compensation of a newly confirmed officer in the city that the member was last employed.

At June 30, 2004 MPORS had 22 participating employers, the same as in FY2003. The participating employers consist of:

Contributions: Member and employer contribution rates are established by state law and may be amended only by the Legislature. Member contribution rates are dependent upon date of hire as a police officer. For fiscal years 2004 and 2003, member contributions as a percentage of sal-

ary were 5.8% (if employed on or before June 30, 1975); 7.0% (if employed after June 30, 1975 and prior to July 1, 1979); 8.5% (if employed after June 30, 1979 and prior to July 1, 1997);

MPORS EMPLOYERS		
<u>Employers</u>	<u>June 30, 2004</u>	<u>June 30, 2003</u>
Cities and Towns	<u>22</u>	<u>22</u>
Total	<u>22</u>	<u>22</u>

and, 9.0% (if employed on or after July 1, 1997 and for members electing GABA). Contributions are deducted from each member's salary and remitted by participating employers. An individual account is established for each member's contributions and interest allocations until a retirement or refund request is processed. Employer contributions to the retirement plan are 14.41% of total MPORS-covered payroll. The State contributions are requested at the beginning of the fiscal year based on the previous fiscal year compensation and are due no later than November 1. The State's contribution rate for 2004 and 2003 was 29.37%. (Reference Schedule of Contribution Rates on page 71).

Deferred Retirement Option Plan (DROP): Beginning July 2002, eligible members of MPORS can participate in the DROP by filing a one-time irrevocable election with the PERB. The DROP is governed by Title 19, chapter 9, part 12, MCA. An eligible member must have completed at least twenty years of membership service. They may elect to participate in the DROP for a

minimum of one month and a maximum of five years and may participate in the DROP

MPORS Membership by Employee Type

only once. A participant remains a member of the MPORS, but will not receive membership service or service credit in the system for the duration of the member's DROP period. During the participation in the DROP, all mandatory contributions continue to the retirement system. A monthly benefit is calculated based on salary and years of service to the date of the beginning of the DROP period. The monthly benefit is paid into the DROP account until the end of the DROP participation period. At the end of the DROP period, the participant may receive the balance of the DROP account in a lump-sum payment or in a direct rollover to another eligible plan, as allowed by the IRS. If the participant contin-

FINANCIAL SECTION

ues employment after the DROP period ends they will again accrue membership service and service credit. The DROP account cannot be distributed until employment is formally terminated. As of June 30, 2004, 33 members have participated in the DROP.

Firefighters' Unified Retirement System

Plan Description: The FURS is a multiple-employer, cost-sharing defined benefit plan established in 1981, and governed by Title 19, chapters 2 & 13, MCA. This system provides retirement benefits to firefighters employed by first- and second-class cities and other cities that adopt the plan and to firefighters hired by the Montana Air National

amended by the Legislature. The FURS provides retirement, disability and death benefits to

plan members and their beneficiaries. Benefits are based on eligibility, years of service and compensation. Member rights are vested after five years of service. A brief summary of eligibility and benefits follows:

DROP Participation		
	6/30/2004	6/30/2003

FINANCIAL SECTION

and the State of Montana is the only contributor to the plan. Benefits are established by state

law and can only be amended by the Legislature. The VFCA provides pension, disability and survivorship benefits for all volunteer firefighters who are members of qualified volunteer fire companies in unincorporated areas, towns or villages under the laws of the State of Montana. Benefits are based on eligibility and years of service. Member rights are vested after ten years of credited membership service. VFCA also provides limited benefits for injuries incurred in the line of duty.

Members of the VFCA can accumulate more than 20 years of service if they meet the re-

quired criteria. On or after July 1, 2003, when the member is both age 55 and already has 20 years of service, the member can accumulate years of service beyond 20 with a maximum of 30 years allowed if the member continues service. A brief summary of eligibility and benefits follows:

VFCA Summary of Benefits

Years of service required and/or age eligible for benefit

Age 55, 20 years of credited service (full benefit);

Age 60, 10 years of service (partial benefit)

Additional Retirement

After July 1, 2003, active volunteers that are both age 55 and have at least 20 years of service may receive credit for additional years of service.

Vesting 10 years

Monthly benefit formula

\$7.50 per year of credited service, maximum \$150

If greater than 20 years of service (but not more than 30 years), maximum \$225

Contributions: The State is the only contributor to the VFCA. Contributions are 5% of fire insurance premium taxes collected on certain fire risks. The State Auditor makes annual payments from the general fund to the Volunteer Firefighters' Pension Fund from fire insurance premiums. (Reference Schedule of Contribution Rates on page 71).

Group Insurance Payments: Supplemental payments are available to qualified volunteer fire companies that provide additional group medical insurance for their members in case of death or injury incurred while in the line of duty. The payment is made to the volunteer fire companies and is equal to \$75 per year for each mobile firefighting unit owned by the volunteer fire company, up to a maximum of two units.

Public Employees' Retirement System-DCRP

Plan Description: The defined contribution retirement plan (DCRP) is a multiple employer plan established July 1, 2002 and governed by Title 19, chapters 2 & 3, MCA. This plan covers eligible employees of the State, university system, local government and certain employees of the school districts that

elect the defined contribution retirement plan. All new hires, initially, are members of the

PERS-DBRP. New hires have a 12-month window during which they may choose to transfer to the PERS-DCRP or remain in the PERS-DBRP. The choice is irrevocable. Members may not be members of both the *defined contribution* and *defined benefit* retirement plans. The PERS-DCRP provides retirement, disability and death benefits to plan members and their beneficiaries. Contribution rates can only be amended by the Legislature. Benefits are based on eligibility and account balance.

The PERB has received a long-term INTERCAP loan from the Montana Board of Investments through the Montana Department of Administration to fund the plan start-up/implementation costs. Authorization for the loan was provided by the Legislature, Chapter 471, Laws of 1999. As of June 30, 2004, all of the draws have been combined into one loan and the maturity date extended to February 2018. The loan is discussed in Note C of the Financial Section.

The investment options offered within the PERS-DCRP are selected by the PERB with the assistance of the statutorily created Employee Investment Advisory Council (EIAC) and with the advice of a third-party investment analyst. Members of the DCRP decide how to invest their contributions and a portion of their employer's contributions among the offered investment options. The remaining portion of employer's contributions is used to maintain funding of the defined benefit plan, to provide disability benefits and to fund an employee education program. Members are able to invest in any number of the offered investment options and transfer between options, daily, if desired. The variable investment options cover all standard asset classes and categories and range from

aggressive to conservative. The investment options as of June 30, 2004 are as follows:

DCRP Fixed Fund

Mutual fund administrative costs are not presented on the financial statements. Mutual fund earnings are generally declared net of expenses in accordance with the Securities Exchange Commission and other regulatory authorities. Current reporting standards for mutual companies do not require costs to be made available in the detailed cost reports.

FINANCIAL SECTION

The fixed investment option requires the services of three external providers who were selected through the State's competitive bidding process. The external providers are: Aegon, Pacific Investment Management Company (PIMCO) and State Street Bank Kansas City (SSKC). Aegon provides a guarantee of principal and sets a quarterly rate of return based upon the investment manager's portfolio yield and duration. PIMCO, the investment manager, directs the investment of fixed assets. Fixed assets are invested in the mutual market in accordance with established guidelines for credit quality, duration and issue concentration. SSKC is PIMCO's custodial bank and holder of the fixed assets. SSKC exchanges the assets as directed by PIMCO.

Fees on the fixed investments are charged by each of the three providers. The fees are defined per each contract for specific services rendered. The record keeper, Great West, charges a fixed administrative fee for all plan participants plus a basis point (or percent) fee based on account balances. On a quarterly basis, the contracted record keeper withholds the fees from each plan participant's account. The basis point fees withheld are submitted to the PERB to pay administrative expenses. These amounts are recorded as *Miscellaneous Revenue* in the financial statements.

Administrative expenses and the revenues that fund them are accounted for within the plan. For the PERS-DCRP, the fixed investment is invested in a PIMCO mutual fund and all fees for investment expense are netted from the mutual fund earnings; therefore, the fees are not presented on our financial statements. The fees charged by Great West and Aegon are classified as *Miscellaneous Expense*.

ployers contribute 6.8% of PERS-covered payroll. The State contributes the remaining 0.1% for local governments and school employers from the state general fund. The employer rate of 6.9% is allocated as follows: 4.19% allocated to the member's retirement account, 2.37% allocated to the defined benefit plan choice rate, 0.04% allocated to defined contribution education fund and 0.3% allocated to the long-term disability plan. (Reference Schedule of Contribution Rates on page 71).

Plan Membership Elections: Included in the financial statements are employer contribution transfers of \$10 thousand and member contribution transfers of \$17 thousand. These transfers reflect the contribution transfers of DCRP participants that filed elections at or near the June 30th cutoff date but the contributions were moved in early fiscal year 2005.

DCRP Education Fund: Implemented July 1, 2002, the DCRP Education Fund (DCEd), as governed by section 19-3-112, MCA, provides education to the members that have joined the PERS-DCRP and the

ORP. The DCEd is funded by 0.04% of the employers' contribution.

DCRP Disability Fund: Implemented July 1, 2002, the DCRP Disability Fund (DC Disability), as governed by section 19-3-2117, MCA, will provide disability benefits to eligible members of the PERS-DCRP. The DC Disability is funded by 0.3% of the employers' contribution.

Deferred Compensation Plan (457)

Plan Description: The deferred compensa-

FINANCIAL SECTION

tion (457) plan is a voluntary supplemental retirement savings plan established in 1976. The deferred compensation plan is governed by Title 19, chapter 50, MCA, in accordance with Internal Revenue Service Code (IRC) §457. All employees of the State, the Montana University System and contracting po-

record keeper for the deferred compensation plan. Participants elect to defer a portion of their

salary, within Internal Revenue Code limits. The deferred salary is not available to employees until separation from service, retirement, death, or upon an unforeseeable emergency while still employed and must meet IRC-specified criteria.

Plan participants direct their deferred salary into investment options offered within the plan. The investment options offered are selected by the PERB with the assistance of the statutorily-created Employee Investment Advisory Council (EIAC) and with the advice of a third-party investment analyst. Plan participants may invest in as many of the offered investment options as desired. The offered investment options fall into two primary types: (1) the fixed investment option and (2) the variable investment options. The investment options as of June 30, 2004 are as follows:

Conservative

The variable investment options include mutual funds and profile funds. All options range from aggressive to conservative. The mutual funds cover all standard asset classes and categories. The profile funds are preset funds that invest in underlying mutual funds

to achieve a set objective such as time horizon or investment style.

Mutual fund administrative costs are not presented on the financial statements. Mutual fund earnings are generally declared net of expenses in accordance with the Securities Exchange Commission and other regulatory authorities. Current reporting standards for mutual companies do not require costs to be made available in the detailed cost reports.

The fixed investment option guarantees both principal (the deferred salary) and a quarterly rate of return. The fixed investment option requires the services of three external providers who were selected through the State's competitive bidding process. The external providers are: Aegon, Pacific Investment Management Company (PIMCO) and State Street Bank Kansas City (SSKC). Aegon provides a guarantee of principal and sets a quarterly rate of return based upon the investment manager's portfolio yield and duration. PIMCO, the investment manager, directs the investment of fixed assets. Fixed assets are invested in the bond market in accordance with established guidelines for credit quality, duration and issue concentration. SSKC is PIMCO's custodial bank and holder of the fixed assets. SSKC exchanges the assets as directed by PIMCO.

In addition to the above investment options, plan participants previously had the option to direct a portion of their deferrals to a term life insurance policy provided through Allianz Life Insurance. The ability to invest in life insurance is allowed under the IRC and was offered to plan participants prior to life insurance being offered as a standard component of health insurance benefit packages. This investment option has been discontinued; however, plan participants who had previ-

ously or originally elected this option may continue.

Fees on the fixed investments are charged by each of the three providers. The fees are defined per each contract for specific services rendered. The record keeper, Great West, charges a fixed administrative fee for all plan participants. The fixed record-keeping fee, by contract, is a flat dollar amount. On a quarterly basis, the contracted record keeper withholds the basis point fee from each plan participant's account. The basis point fees collected are reconciled to the contractual flat dollar amount and any fees withheld in excess of the contractual flat dollar fee are submitted to the PERB. Also submitted to the PERB are 12(b)(1) or re-allotment fees from certain mutual fund companies. These fees are normally charged by the mutual funds for the purpose of individual record keeping. Because the mutual fund companies involved in the deferred compensation plan do not need to keep records of participants accounts, the fees are returned to the PERB. The PERB uses the excess and 12(b)(1) fees to pay administrative expenses associated with the deferred compensation plan. These amounts are recorded as *Miscellaneous Revenue*.

Administrative expenses and the revenues that fund them are accounted for within the plan. The fees charged by PIMCO and SSKC for the externally managed fixed investments are classified as *Investment Expense*. The fees charged by Great West and Aegon are classified as *Miscellaneous Expense*.

Covered payroll is not applicable to VFCA because members are unpaid volunteers.

liability in isolation can be misleading. Expressing plan net assets as a percentage of the actuarial accrued liability over time indicates whether the plan is becoming financially stronger or weaker. Generally, the greater this payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of annual made in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the

Notes to the Required Supplementary Information

The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information as of latest actuarial valuation follows:

	PERS-DBRP	JRS	HPORS
Valuation date	June 30, 2004	June 30, 2004	June 30, 2004
Actuarial cost method	Entry Age	Entry Age	Entry Age
Amortization method	Level percentage of payroll, open	Level percentage of payroll, open	Level percentage of payroll, open
Remaining amortization period in years:			
Unfunded Liability	does not amortize ¹		19.1
Unfunded Credit ²		30	
Asset valuation method	4-Year smoothed market	4-Year smoothed market	4-Year smoothed market
Actuarial assumptions:			
Investment rate of return compounded annually	8%	8%	8%
Projected salary increases			
General Wage Growth	4.25%	4.25%	4.25%
Merit	0% - 6%	None	0% - 7.3%
Benefit Adjustments			
GABA	3% after 1 yr	3% after 1 yr	3% after 1 yr
Non-GABA	N/A	Annual increase to salary of active member in like position	2% per yr service for newly confirmed officer

¹ The unfunded actuarial liability will not amortize over the next 30 years. Based on actuarial assumptions as of June 30, 2004, additional funding is required at a rate of 1.19% for PERS, 2.15% for SRS and 0.23% for GWPORS. The PERB will be requesting to increase the employer contribution rates during the next Legislative Session.

² Assets are larger than the past service liability – creating an unfunded credit; the credit is amortized over future costs.

Report on Investment Activity

INTRODUCTION

The Montana Constitution and Montana statutes govern the investment activity of the retirement funds administered by the Public Employees' Retirement Board (PERB). The "prudent expert principle," contained in the Montana Constitution and Montana statute, requires the fiduciaries of the funds, including the Montana Board of Investments (BOI), to discharge their duties in the same manner that a prudent expert acting in a fiduciary capacity and under the same circumstances, exercises in the conduct of an enterprise of a similar character with similar objectives.

The prudent expert principle permits further diversification of the holdings of the fund to minimize the risk of loss and maximize the rate of return. The opportunity to diversify among various asset classes does enable a fund to reduce volatility and increase returns.

The BOI prepares and provides information related to the defined benefit investments for the PERB. The Montana Public Employee Retirement Administration (MPERA), staff of the PERB, is responsible for the presentation of the report of investment activity.

INVESTMENT GOALS AND OBJECTIVES

The basic goal influencing the investment activity for the PERB is two-fold. First is to realize compound rates of return sufficient to fund promised benefits; and the second is to provide benefit services at the lowest possible cost to employers and members.

The basic investment objective of the BOI is achievement of a total rate of return which exceeds the rate of inflation as measured by the Consumer Price Index by 3% over any five-year rolling period, while out-performing the market indices for each asset class over the current five-year rolling period.

To calculate the PERB's defined benefit investment returns, State Street Bank and Trust, BOI's custodial bank and an independent third party, uses the industry performance presentation standards times weighted total rate of return method.

RISK TOLERANCE

In view of the long time horizon of the pension plans and adequacy of cash flow to meet retiree payments, all funds have an above average ability to assume risk. For Montana loans, maximum loan size is \$5 million.

INVESTMENT MANAGEMENT AND RESULTS

The funds of each defined benefit plan are invested by the BOI as part of the unified investment program. The portfolio is broadly diversified between the various asset classes (stocks, bonds, real estate, venture capital, etc.). A complete list of portfolio information is available through the BOI. State Street Bank and Trust compiles the rates of return for the investments using the Association for Investment Management and Research (AIMR) Performance Presentation Standards. The total rates of return for fiscal year 2004 are reported for each defined benefit fund by the BOI. The following tables are a summary of the information received from the BOI.

INVESTMENT SECTION

ASSET ALLOCATION

Correct asset allocation is the main determinant of the BOI's success in meeting long-term investment objectives. The asset mix

with the highest probability of achieving the basic investment objective and the actual asset mix for fiscal year 2004 is listed in the following table for both fixed income investments and equity investments.

FY2004 ASSET ALLOCATION

		Investment Objective	Actual Investment		Investment Objective	Actual Investment

Public Employees' Retirement Board
 State of Montana

Dear Members of the Board:

Actuarial valuations are normally performed every two years, as of July 1st of each even-numbered year. The previous valuations were performed as of July 1, 2002. We have now completed actuarial valuations as of July 1, 2004 for the following retirement systems:

- Public Employees' Retirement System
- Municipal Police Officers' Retirement System
- Game Wardens' and Peace Officers' Retirement System
- Sheriffs' Retirement System
- Judges' Retirement System
- Highway Patrol Officers' Retirement System
- Firefighters' Unified Retirement System
- Volunteer Firefighters' Compensation Act

The member, employer, and state contributions are set forth in statute. Our findings indicate the projected income stream from the expected contributions will be sufficient to pay the Normal Costs and amortize the Unfunded Actuarial Liability as a level percentage of future payroll, for the following systems. The amortization periods are shown below.

- | | |
|--|------------|
| - Municipal Police Officers' Retirement System | 24.4 years |
| - Highway Patrol Officers' Retirement System | 19.1 years |
| - Firefighters' Unified Retirement System | 18.7 years |

Based on the assumed level of future revenue, the Unfunded Actuarial Liability for the Volunteer Firefighters' Compensation Act is expected to be amortized over less than 20 years. The Judges' Retirement System had an Actuarial Surplus as of July 1, 2004.

Our findings indicate the projected income stream from the expected contributions will not be sufficient to pay the Normal Costs and amortize the Unfunded Actuarial Liability for the following systems. The additional contributions necessary as of July 1, 2004 to amortize the Unfunded Actuarial Liabilities over 30 years are shown below.

- | | |
|---|------------------|
| - Public Employees' Retirement System | 1.19% of payroll |
| - Game Wardens' and Peace Officers' Retirement System | 0.23% of payroll |
| - Sheriffs' Retirement System | 2.15% of payroll |

The general decline in the funded status for each system over the previous two years is primarily due to the fact that recent investment returns have been less than the long-term actuarial assumption of 8% per year.

In preparing the 2004 valuations, we relied upon the financial and membership data furnished by the Public Employees' Retirement Administration. Although we did not audit this

data, we compared the data for this and the prior valuation and tested for reasonableness. Based on these tests, we believe the data to be sufficiently accurate for the purposes of our calculations. It should be noted that if any data or other information is inaccurate or incomplete, our calculations might need to be revised.

Information presented in this Actuarial Section as of June 30, 2004, including the following supporting tables, is based on information found in our actuarial valuation reports:

- Summary of Actuarial Assumptions and Methods
- Schedule of Active Member Composition
- Solvency Test
- Summary of Actuarial (Gain) or Loss by Source
- Summary of Defined Benefit Plan Provisions

In addition, data for the fiscal year ending June 30, 2004, contained in the Schedule of Funding Progress in the Financial Section, are based on information in our valuation reports.

The Retirement Board has sole authority to determine the actuarial assumptions and methods used for the actuarial valuations. The Board adopted all of the actuarial methods and assumptions used in the 2004 valuations.

The findings have been determined according to actuarial assumptions and methods that were chosen on the basis of recent experience of the systems and of current expectations concerning future economic conditions. In our opinion, the assumptions used in the actuarial valuations are appropriate for purposes of the valuations, are internally consistent, and reflect reasonable expectations. The assumptions represent our best estimate of future conditions affecting the systems. Nevertheless, the emerging costs will vary from those presented in the reports to the extent that actual experience differs from that projected by the assumptions.

I certify that the information included in this report is complete and accurate to the best of my knowledge and belief. The actuarial valuations were prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the applicable Standards of Practice adopted by the Actuarial Standards Board of the American Academy of Actuaries. In addition, the assumptions and methods used meet the parameters set for disclosures by Statement No. 25 of the Governmental Accounting Standards Board.

Milliman has been engaged by the Retirement Board as an independent actuary. The undersigned is a Fellow of the Society of Actuaries, a Member of the American Academy of Actuaries, an Enrolled Actuary, and experienced in performing valuations for large public employee retirement systems.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Mark O. Johnson', written over a large, stylized blue circular mark.

Mark O. Johnson, F.S.A., M.A.A.A., E.A.
Consulting Actuary

Public Employees' Retirement Board

SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

BACKGROUND

An actuarial valuation of the plans was completed in 2004 by the actuary, Milliman. The most recent experience study was completed in 2004. This experience study investigates the actual experience of each plan administered by the PERB. The actuarial methods and assumptions are described in this section. The methods and assumptions have been chosen by the PERB, based on the actuary's recommendation. The recommendations were formed on the basis of recent experience of the plans and on current expectations as to future economic conditions. Economic assumptions are based on inflation and include general wage increases, investment return and interest on member accounts. Demographic assumptions include general salary increases (including promotions and longevity), retirement, disability, mortality for the specific groups (active members, retired members, disabled members and beneficiaries), other terminations and probability of retaining membership.

The assumptions are intended to estimate the future experience of the plans and the members of the plans in areas which affect the projected benefit flow and anticipated investment earnings. Any variations in future experience from that expected from these assumptions will result in corresponding changes in the estimated cost of the plan's benefits.

RECORDS AND DATA

The data used in the valuation consists of financial information and records of age, ser-

vice and income of contributing members, former contributing members and their survivors. All data supplied to the actuary by the MPERA was accepted for valuation purposes without audit.

ACTUARIAL COST METHOD

A fundamental principle in financing the liabilities of a retirement program is that the cost of benefits should be related to when they are earned, rather than when they are paid. There are a number of methods in use for making the determination.

The funding method used in the valuations is the Entry Age Cost Method. Under this method, the actuarial present value of projected benefits for each individual member included in the valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit age. The portion of this actuarial present value allocated to a valuation year is called the Normal Cost. The portion of this actuarial present value not provided for at a valuation date by the actuarial present value of future Normal Cost is called the Actuarial Liability.

The excess of the Actuarial Liability over the Actuarial Value of Assets is called the Unfunded Actuarial Liability. If the Actuarial Value of Assets exceeds the Actuarial Liability, the difference is called the Actuarial Surplus.

ASSET VALUATION METHOD

Asset values were supplied by the PERB and were accepted without audit by the actuary.

ACTUARIAL SECTION

The Actuarial Value of Assets is the market value, adjusted by a four-year recognition of gains and losses.

INVESTMENT RETURN

The future investment earnings of the assets of the plans are assumed to accrue at a net annual rate of 8.00%, net of all administrative and investment-related expenses.

INTEREST ON MEMBER CONTRIBUTIONS

With the exception of VFCA, interest on member contributions at the time of the valuation was assumed to accrue at a net annual rate of 5%.

FUTURE SALARIES

Estimates of future salaries are based on two types of assumptions. Rates of increase in the general wage level of the membership are directly related to inflation, while individual salary changes due to promotion and longevity, referred to as the merit scale, occur even in the absence of inflation. The assumed increase in future salaries due to general wage growth is 4.25% per year for all plans. The merit scale is based on years of service and is in addition to the wage growth. The merit scale is calculated independently for each plan based on the factors applicable to the plan. VFCA is excluded from this calculation because members are unpaid volunteers.

MORTALITY

The probabilities of mortality for Healthy Retirees, Beneficiaries and Non-Retired Members are based on 1994 Uninsured Pensioner Tables for males and females and adjusted for each plan as stated in the following table:

Healthy Retirees, Beneficiaries and Non-Retired Members		
	<u>Males</u>	<u>Females</u>
PERS	-1	-1
JRS	-1	-1
HPORS	-1	0
SRS	-1	0
GWPORS	-1	0
MPORS	-1	0
FURS	-1	0

The probabilities of mortality for Disabled Retirees are based on the IRS Revenue Ruling 96-7 Males/Females Table and adjusted for each plan as stated below:

Disabled Retirees		
	<u>Males</u>	<u>Females</u>
PERS	-3	+1
JRS	-3	+1
HPORS	+3	+2
SRS	+3	+2
GWPORS	+3	+2
MPORS	+3	+2
FURS	+3	+2
VFCA	-3	+1

SERVICE RETIREMENT

The assumed rates of service retirement used in the valuations are dependent upon age and years of service and differ between plans. The rates are based on the actual experience of the individual plans as determined in the 2000 experience study. Under all plans, vested, terminated members are assumed to retire when first eligible for an unreduced benefit.

DISABLEMENT

The assumed rates of disablement are dependent upon ages and differ between plans. It is further assumed that 10% of all disabilities are

duty-related, that all disabilities are permanent and that no disabled member will recover and return to work.

OTHER TERMINATIONS OF MEMBERSHIP

The assumed rates of termination, other than for retirement, death, or disability, are calculated individually for each plan. The JRS does not assume termination for any other reason than retirement, death or disability.

TERMINATING MEMBERS ELECTING A REFUND

It is assumed that all terminating members that are non-vested will receive an immediate withdrawal of their member contributions with interest. The probability of a terminating member electing a refund of the member account balance is based on age and different for each plan as described in the actuary valuation. These assumptions do not apply to the JRS or VFCA.

ACTUARIAL AUDIT

An actuarial audit was performed during the 2004 actuarial valuation by Mellon. The audit was performed in conjunction with the valuation by MPERA's actuary, Milliman. The audit was performed to express an opinion regarding the reasonableness and accuracy of the valuation data, actuarial assumptions, actuarial cost methods and valuation results. The scope of the audit included both a technical review of the valuation results and a professional peer review of the actuarial assumptions and methods used by Milliman. Mellon determined from their full scope review that the actuarial valuation of PERS prepared by Milliman, fairly represents the actuarial position and funding requirements of the retirement system. Mellon offered suggestions for enhancement but finds Milliman's actuarial results to be reasonable.

Summary of Defined Benefit Plan Provisions

The summary of plan provisions as of June 30, 2004, is presented separately for each plan.

Public Employees' Retirement System-DBRP

Normal Retirement	Eligibility:	Age 65 regardless of membership service, or Age 60 and 5 years of membership service, or 30 years of membership service regardless of age.
	Benefit:	Years of service credit, multiplied by highest average compensation (highest 36 consecutive months), multiplied by 1/56th if membership service at retirement is less than 25 years, or multiplied by 1/50th if membership service at retirement is at least 25 years.
	Normal Form:	Monthly benefit for the life of the member, with a death benefit equal to the remaining balance of the member's contribution account.
Early Retirement	Eligibility:	Age 50 and 5 years of membership service or 25 years of membership service regardless of age.
	Benefit:	Actuarial equivalent of the accrued benefit based on retirement at age 60 or 30 years of membership service.
Disability Retirement	Eligibility:	5 years of membership service
	Benefit:	If hired on or before February 24, 1991, the greater of (a) and (b) below: (a) Years of service credit, multiplied by highest average compensation, multiplied by 90% of 1/56th (1/50th if 25 or more years of membership service), or (b) Highest average compensation multiplied by 25%.

ACTUARIAL SECTION

Judges' Retirement System

Normal Retirement	Eligibility:	Age 60 and 5 years of membership service.
	Benefit:	(1) If hired before July 1, 1997, the sum of (a) and (b) below: (a) Years of service credit (up to 15), multiplied by current salary, multiplied by 3-1/3%, plus (b) Years of service credit (over 15), multiplied by current salary, multiplied by 1.785%. (2) If hired on or after July 1, 1997 or electing GABA: (a) Same formula as above, substituting highest average compensation for current salary.
	Normal Form:	For non-GABA members - the monthly benefit for the life of the member, with a final payment equal to the accumulated contributions of the member account at retirement less the sum of all payments made to the date of death. This final payment may be annuitized. For GABA members - monthly benefit for the life of the member, with a final payment equal to the remaining balance of the member's contribution account.
Disability Retirement	Eligibility:	Service disablement
	Benefit:	For non-GABA members - 50% of current salary. For GABA members - 50% of highest average compensation.
	Eligibility:	Non-service disablement
	Benefit:	Actuarial equivalent of accrued benefit based on a retirement age of 60.

ACTUARIAL SECTION

Death before Retirement	Eligibility:	Service death
	Benefit:	Accrued benefit commencing at time of death.
	Eligibility:	Non-service death
	Benefit:	Actuarial equivalent of accrued benefit based on a retirement age of 60.
Termination Benefit	Eligibility:	Prior to 5 years of membership service
	Benefit:	Return of member contributions with interest.
	Eligibility:	5 years of membership service
	Benefit:	Either (a) or (b) below: (a) Return of member contributions with interest, or (b) Actuarial equivalent of the accrued benefit based on a retirement age of 60.
Benefit Adjustments	Eligibility:	Retired members and beneficiaries.
	Benefit: Either	(a) or (b) below, as elected: (a) An annual adjustment (GABA) of 3.0%, commencing January 1st, one year after retirement for members hired on or after July 1, 1997, if elected by the member, or (b) The annual increase in compensation to active members.
Contributions	Members:	7.00% of members' compensation.
	Employers:	25.81 % of members' compensation.

ACTUARIAL SECTION

Highway Patrol Officers' Retirement System

Normal Retirement	Eligibility:	20 years of membership service regardless of age.
	Benefit:	Years of service credit, multiplied by highest average compensation, multiplied by 2.50%.
	Normal Form:	Monthly benefit for the life of the member, with full benefits continuing to the surviving spouse or dependent children upon the death of the member.
Early Retirement	Eligibility:	5 years of membership service and discontinued from service
	Benefit:	Actuarial equivalent of accrued benefit based on a retirement age of 60.
Disability Retirement	Eligibility:	Service disablement
	Benefit:	Minimum of 50% of highest average compensation.
	Eligibility:	Non-service disablement
	Benefit:	Actuarial equivalent of accrued benefit based on a retirement age of 60.
Death before Retirement	Eligibility:	Service death
	Benefit:	50% of highest average compensation, less benefits paid from workers' compensation.
	Eligibility:	Non-service death
	Benefit:	Actuarial equivalent of accrued benefit based on a retirement age of 60.

ACTUARIAL SECTION

Sheriffs' Retirement System

Service Retirement	Eligibility:	20 years of membership service regardless of age.
	Benefit:	Years of service credit, multiplied by highest average compensation, multiplied by 2.50%.
	Normal Form:	Monthly benefit for the life of the member, with a death benefit equal to the remaining balance of the member's contribution account.
Early Retirement	Eligibility:	5 years of membership service and attainment of age 50.
	Benefit:	Actuarial equivalent of the accrued benefit based on retirement at the earlier of completing 20 years of service credit, or age 60.
Disability Retirement	Eligibility:	Service disablement
	Benefit:	Minimum of 50% of highest average compensation. If more than 20 years of service credit, years of service credit, multiplied by highest average compensation, multiplied by 2.50%.
	Eligibility:	Non-service disablement
	Benefit:	Actuarial equivalent of accrued benefit based on a retirement age after completing 20 years of membership service or age 60.
Death before Retirement	Eligibility:	Service death
	Benefit:	50% of highest average compensation.
	Eligibility:	Non-service death
	Benefit:	Actuarial equivalent of accrued benefit based on a retirement age of 65 or completing 20 years of membership service.

ACTUARIAL SECTION

Game Wardens and Peace Officers' Retirement System

Service Retirement	Eligibility:	Age 50 and 20 years of membership service.
	Benefit:	Years of service credit, multiplied by highest average compensation, multiplied by 2.50%.
	Normal Form:	Monthly benefit for the life of the member, with a death benefit equal to the remaining balance of the member's contribution account.
Early Retirement	Eligibility:	5 years of membership service and age 55
	Benefit:	Years of service credit, multiplied by highest average compensation, multiplied by 2.50%
Disability Retirement	Eligibility:	5 years of membership service, and service disablement
	Benefit:	50% of highest average compensation. If the member has more than 20 years of service credit, 2.5% of highest average compensation multiplied by years of service credit
	Eligibility:	Non-service disablement
	Benefit:	Actuarial equivalent of accrued benefit based on a retirement age of 50.
Death before Retirement	Eligibility:	Service death
	Benefit:	50% of highest average compensation. If the member has more than 25 years of service credit, 2.0% of highest average compensation multiplied by years of service credit
	Eligibility:	Non-service death
	Benefit:	Actuarial equivalent of accrued benefit based on a retirement age of 55.

ACTUARIAL SECTION

Municipal Police Officers' Retirement System

Service Retirement	Eligibility:	20 years of membership service regardless of age or 5 years of membership service and age 50
	Benefit:	Years of service credit, multiplied by 2.5%, multiplied by (a) if hired before July 1, 1977: Average monthly compensation during final year of service, or (b) if hired on or after July 1, 1977: Average regular monthly compensation (for last consecutive 36 months).
	Normal Form:	Monthly benefit for the life of the member, with full benefits continuing to the surviving spouse or dependent children upon the death of the member.
Disability Retirement	Eligibility:	Immediate
	Benefit:	If hired before July 1, 1977: Minimum of 50% of base salary. If hired on or after July 1, 1977: Minimum of 50% of final average compensation.
Death before Retirement	Eligibility:	Immediate
	Benefit:	If hired before July 1, 1977: Minimum of 50% of base salary. If hired on or after July 1, 1977: Minimum of 50% of final average compensation.
Termination Benefit	Eligibility:	Prior to 5 years of membership service
	Benefit:	Return of member contributions with interest.
	Eligibility:	5 years of membership service
	Benefit:	Either (a) or (b) below: (a) Return of member contributions with interest, or (b) Actuarial equivalent of the accrued benefit based on a retirement age of 50.

ACTUARIAL SECTION

Benefit Adjustments	Eligibility:	Retired members and beneficiaries.
	Benefit:	Either (a) or (b) below, as elected by the member: (a) An annual adjustment (GABA) of 3.0%, commencing one year after retirement for members hired on or after July 1, 1997, or if elected by the member, or (b) 50% of the salary of a newly confirmed police officer in the city in which the member was employed.
Contributions	Members:	Either (a), (b), (c), (d), or (e) below: (a) If hired prior to June 30, 1975: 5.80% of members' compensation, or (b) If hired after June 30, 1975 and prior to July 1, 1979: 7.00% or (c) If hired after June 30, 1979 and prior to July 1, 1997: 8.50%. or (d) If hired on or after July 1, 1997: 9.00%, or (e) For members electing the GABA, 9.00%
	Employers:	14.41% of members' compensation.
	State:	29.37% of members' compensation.

This page intentionally left blank

ACTUARIAL SECTION

Firefighters' Unified Retirement System

Normal Retirement	Eligibility:	20 years of membership service regardless of age.
	Benefit:	If hired prior to July 1, 1981, and those not electing GABA - the greater of: (a) 2.5% of final average compensation, multiplied by years of service credit or (b) i. If less than 20 years of membership service, 2% of final average compensation, multiplied by years of service credit ii. If greater than 20 years of membership service, 50% of final average compensation, plus years of service in excess of 20, multiplied by final average compensation, multiplied by 2.00% If hired on or after July 1, 1981, and those electing GABA, years of service credit, multiplied by final average compensation, multiplied by 2.50%
	Normal Form:	Monthly benefit for the life of the member, with full benefits continuing to the surviving spouse or dependent children upon the death of the member.
Disability Retirement	Benefit:	(a) If less than 20 years of membership service, 50% of final average compensation. (b) If greater than 20 years of membership service, 2.5% of final average compensation for each year of service credit.
Death before Retirement	Benefit:	(a) If less than 20 years of membership service, 50% of final average compensation. (b) If greater than 20 years of membership service, 2.5% of final average compensation for each year of service credit.

ACTUARIAL SECTION
